Investment strategy	The scheme aims to generate stable returns by investing predominantly in debt & money market instruments issued by Banks, Public Financial Institutions (PFIs) and Public Sector Undertakings (PSUs). The Scheme shall endeavor to generate optimum returns with low credit risk. Investment in debt & money market instruments issued by Banks, PFIs, PSUs, Treasury Bills & Government Securities is primarily with the intention of maintaining high credit quality & liquidity. At least 70% of the net assets of the Scheme shall be invested in securities rated AAA/A1+ / Sov and equivalent. Balance may be invested in securities rated below AAA/A1+ / Sov and equivalent. The investment team of the AMC will carry out rigorous in depth credit evaluation of the Debt & Money Market Instruments proposed to be invested in. The credit evaluation will essentially be a bottom up approach and include a study of the operating environment of the issuer, the past track record as well as the future prospects of the issuer and the short term/ long term financial health of the issuer.	The investment objective of this scheme is to maximize returns to the investor through an active management of the portfolio, by elongating the duration of the portfolio in a falling interest rate scenario and reducing the duration at a time when interest rates are moving up. With the discretion to take aggressive interest rate/duration risk calls, this could mean investing the entire net assets in long dated Government securities and debt instruments (carrying relatively higher interest rate risk/duration risk), or on defensive considerations, entirely in money market instruments. Accordingly, the interest rate risk/duration risk of the scheme may change substantially depending upon the Fund's call.														
Risk profile of the scheme	Mutual Fund units involve investment risks including the possible loss of principal. Scheme specific Risk Factors are summarized below: The scheme carries risks associated with investing in debt and money market securities, short selling and securities lending. Investment in mutual fund units/debt and money market instruments involves investment risks such as interest rate risk, re-investment risk, basis risk, credit risk, spread risk, prepayment risk, default risk, etc. The AMC may choose to invest in unlisted securities which may increase the risk on the portfolio. Also, the value of the Scheme investments may be affected by currency exchange rates, changes in law/policies of the government, taxation laws and political, economic or other developments. Please read the SID carefully for details on risk factors before investment.	Mutual Fund units involve investment risks including the possible loss of principal. Investment strategy	To generate returns similar to the 10 year government bond through investments predominantly in government securities. The scheme will endeavor to maintain an average maturity of close to 10 years. The normal range of average maturity for the scheme would be between 9 and 11 years. The scheme does not intend to actively manage the duration. By investing predominantly in government securities, the scheme aims to maintain a high degree of credit quality and liquidity.			To invest in a diversified portfolio of high quality debt and money market securities to generate optimal returns in the medium term. The fund manager will seek to look for investment opportunities within the same class of fixed income securities (e.g. government securities) having different maturities (e.g. government securities having a residual maturity of 5 years and 7 years) or different classes of Fixed Income Securities with the same maturity profile/residual maturity. (e.g. a government security, an NBFC and a manufacturing corporate security having a residual maturity of 5 years).

Risk management strategies	Interest rate risk is managed by meticulous determination of average maturity (which is the expression for change in portfolio value for a basis point change in interest rate) of the portfolio. Extensive analysis of macro economic conditions is done to form a view on future interest rates and to position the portfolio accordingly. Liquidity risk is addressed by maintaining exposure to cash/cash equivalents and highly liquid instruments. Also, government securities are relatively liquid in nature compared to other fixed income instruments. Credit risk is mitigated as the Scheme would invest in Government securities which have sovereign rating. Investment objective	<p>The investment objective is to provide optimal returns and liquidity to the investors by investing primarily in a mix of money market and short term debt instruments which results in a portfolio having marginally higher maturity as compared to a liquid fund at the same time maintaining a balance between safety and liquidity. However, there can be no assurance that the investment objective of the scheme will be achieved.</p>					
Asset allocation pattern of the scheme	<p>Under the normal circumstances, the asset allocation pattern will be:</p> <table border="1" data-bbox="248 898 890 1222"> <thead> <tr> <th>Type of Instruments</th> <th>Normal Allocation (% of net assets)</th> </tr> </thead> <tbody> <tr> <td>Debt & Money Market Instruments*</td> <td>0 - 100</td> </tr> </tbody> </table> <p>*Includes securitized debt (excluding foreign securitized debt) up to 30% of the net assets of the Scheme. The Scheme shall not invest in foreign securitized debt. Investment in Derivatives - up to 50% of the net assets of the Scheme. The Scheme can invest up to 50% of net assets in Foreign Securities.</p>		Type of Instruments	Normal Allocation (% of net assets)	Debt & Money Market Instruments*	0 - 100
Type of Instruments	Normal Allocation (% of net assets)

Investment strategy	<p>The risk-return profile of this fund positions it in between a liquid fund and short duration income fund. The portfolio strategy seeks to increase yield by having a marginally higher maturity and moderately higher credit risk as compared to a liquid fund; whilst maintaining balance between safety and liquidity.</p> <p>The Scheme is likely to have higher maturity than a liquid fund and the Scheme may have some allocation towards instruments with more than 1 year maturity. However, the average maturity for the Scheme will be maintained in the range of 3 months to 12 months depending on the interest rate view. As a result, the Scheme stands to expose to market risk which can get captured partially by "mark to market component" thereby inducing a potential daily volatility. Also, the Scheme will have a mix of credits with a moderately higher credit risk as compared to a liquid fund. The Scheme will always aim at controlling risk by carrying a rigorous credit evaluation of the instruments proposed to be invested in. The credit evaluation will be carried out on the basis of the parameters mentioned above.</p>	<p>The Fund Manager will try to allocate the assets of the scheme in a diversified portfolio of various high quality Fixed Income Securities to achieve stable returns while having a low risk strategy.</p> <p>The fund manager will seek to look for investment opportunities with the same class of fixed income securities (e.g. government securities) having different maturities (e.g. government securities having a residual maturity of 1 year and 2.5 years) or different classes of Fixed Income Securities with the same maturity profile/residual maturity, (e.g. a government security, an NBFC and a manufacturing corporate security having a residual maturity of 2 years).</p>				
Risk profile of the scheme	<p>Mutual Fund units involve investment risks including the possible loss of principal.</p> <p>Scheme specific Risk Factors are summarized below:</p> <p>The scheme carries risks associated with investing in debt and money market securities, derivatives, Foreign Securities, securitized debt, short selling and securities lending. Investment in mutual fund units involves investment risks such as trading volumes, settlement risk, liquidity risk and default risk. Trading volume may restrict liquidity. The AMC may choose to invest in unlisted securities which may increase the risk on the portfolio. Also, the value of the Scheme investments may be affected by currency exchange rates, changes in law/policies of the government, taxation laws and political, economic or other developments.</p> <p>Investments in debt and money market instruments are subject to interest rate risk, re-investment risk, basis risk, credit risk, spread risk, prepayment risk, etc.</p> <p>Please read the SID carefully for details on risk factors before investment.</p>					
Risk management strategies	<p>Interest rate risk is managed by meticulous determination of average maturity (which is the expression for change in portfolio value for a basis point change in interest rate) of the portfolio. Extensive analysis of macro economic conditions is done to form a view on future interest rates and to position the portfolio accordingly. Credit risk is managed by in-depth analysis of issuer (financial/operating performance) with the help of internal and external research. Liquidity risk is addressed by maintaining exposure to cash/cash equivalents and highly liquid instruments.</p>	<p>Risk Management is an integral part of the investment process and adequate safeguards for controlling risks would be incorporated by the Asset Management Company (AMC) in the portfolio construction process. The following are the key risks associated with investments in fixed income securities and the manner the AMC would endeavor to address them:</p> <p>Risk Involved</p> <p>Interest Rate Risk: Risk that arise in interest rates will cause price of bonds to fall. In general, there is an inverse relationship between interest rates and bond prices so that when interest rates rise, bond price fall and vice versa.</p> <p>Risk Mitigant: The average modified duration of a portfolio is one of the means of measuring the interest rate risk of the portfolio. Higher is the modified duration, the fund stands exposed to a higher degree of interest rate risk. The Investment Review Committee (IRC) of the Asset Management Company would decide on the modified duration to be maintained for the portfolio</p>				

Risk management strategies (contd.)	<p>at a particular point of time after taking into account the current scenario and the investment objective of the scheme. The portfolio duration will be decided after doing a thorough research on the general macroeconomic condition, political environment, systemic liquidity, inflationary expectations, corporate performance and other economic considerations.</p> <p>Credit Risk: Risk of default on payments by the issuer of a security .</p> <p>Risk Mitigant: The credit analyst will make a detailed study of each of the issuers whose security will be bought by the fund. His analysis will include a study of the operating environment, past track record and short term/long term financial health of the issuer. The credit analyst will also take the help of data from external credit rating agencies like ICRA, CRISIL and Fitch during his analysis. The Credit Analyst will recommend the name of the issuers to the IRC who will be the final approving authority for including any issuer in the "target universe of issuers".</p> <p>Liquidity Risk</p> <p>Risk Mitigant: The Mutual Fund will maintain adequate cash/cash equivalent securities to manage the day to day redemptions of the fund. Attention would be given to the historic redemption trends while deciding on the cash equivalent component of the portfolio.</p> <p>Further, the scheme would also make investments only in high quality debt and money market instruments to mitigate the risk of illiquidity of the portfolio.</p> <p>The AMC would endeavor to identify & measure risks through various risk measurement tools like various risk ratios and analyze the same to be able to act in a preventive manner.</p>

Investment objective	To provide a high level of liquidity with reasonable returns commensurate with low risk through a portfolio of money market and debt securities. However, there can be no assurance that the investment objective of the scheme will be achieved.	To generate stable returns by investing in debt & money market instruments across the yield curve & credit spectrum. However, there is no assurance or guarantee that the investment objective of the Scheme will be achieved. The scheme does not assure or guarantee any returns.										
Asset allocation pattern of the scheme	<p>Under the normal circumstances, the asset allocation pattern will be:</p> <table border="1" data-bbox="240 1102 890 1270"> <thead> <tr> <th>Type of Instruments</th> <th>Normal Allocation (% of net assets)</th> </tr> </thead> <tbody> <tr> <td>Money market instruments (including cash, repo, CPs, CDs, Treasury Bills and Government securities) with maturity / residual maturity up to 91 days</td> <td>50% - 100%</td> </tr> <tr> <td>Debt instruments (including floating rate debt instruments and securitized debt)* with maturity/residual maturity / weighted average maturity up to 91 days</td> <td>0% - 50%</td> </tr> </tbody> </table> <p>*securitized debt cumulative allocation not to exceed 30% of the net assets of the Scheme (excluding foreign securitized debt). Pursuant to SEBI circular No. SEBI/IMD/CIR No. 13/150975/09 dated January 19, 2009, the Scheme shall make investment in / purchase debt and money market securities with maturity of up to 91 days only. Explanation: a. In case of securities where the principal is to be repaid in a single payout, the maturity of the securities shall mean residual maturity. In case the principal is to be repaid in more than one payout then the maturity of the securities shall be calculated on the basis of weighted average maturity of the security. b. In case of securities with put and call options (daily or otherwise) the residual maturity of the securities shall not be greater than 91 days. c. Investments in derivatives shall be up to 50% of the net assets of the scheme. Investment in derivatives shall be for hedging, portfolio balancing and such other purposes as may be permitted from time to time. The fund will invest a minimum of 20% in below AAA & equivalent rated issuers. The scheme retains the flexibility to invest across all the securities in the debt and Money Markets Instruments. The scheme may invest in units of debt and liquid mutual fund schemes of Axis AMC or in such schemes of any other mutual funds in conformity with the investment objective of the Scheme and in terms of the prevailing SEBI (MF) Regulations. Provided that such investment will be within the limits specified under SEBI (MF) Regulations and will be done for cash management purposes. The portfolio may hold cash depending on the market condition. The fund manager can use Derivative instruments to protect the downside risk. Subject to the SEBI Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute. These proportions can vary substantially depending upon the perception of the fund manager; the intention being at all times to seek to protect the interests of the Unit holders. Changes in the investment pattern will be for short term and for defensive considerations. In case of deviation, the portfolio would be rebalanced within 30 days from the date of deviation. In case the same is not aligned to the above asset allocation pattern within 1 month, justification shall be provided to the Investment Review Committee and reasons for the same shall be recorded in writing. The Investment Review committee shall then decide on the course of action.</p>	Type of Instruments	Normal Allocation (% of net assets)	Debt instruments & Money Market Instruments*	100%

Differentiation with existing open ended debt schemes (as on September 30, 2017)	Axis Liquid Fund, an open-ended liquid scheme is a scheme offered by Axis Mutual Fund and is not a minor modification of any other existing scheme/product of Axis Mutual Fund. Further, the existing products of Axis Mutual Fund are either debt, hybrid or equity funds and hence the scheme under consideration cannot be compared with any other existing schemes.	For comparison of Existing Schemes, Investment Objective, Asset Under Management (AUM) and number of folios, please refer to point no. 7 on page 13 to 15.										
Investment strategy	Under normal circumstances, the fund shall seek to generate reasonable returns commensurate with low risk by positioning itself at the lowest level of the risk-return matrix. The Scheme will invest predominantly in money market securities with some tactical allocation towards other debt securities to enhance returns from the portfolio.	To generate stable returns by investing in debt & money market instruments across the yield curve & credit spectrum. However, there is no assurance or guarantee that the investment objective of the Scheme will be achieved. The Scheme does not assure or guarantee any returns. The fund manager will endeavour, through a process of robust credit risk assessment & research, to identify optimum credit opportunities in the market and invest in such instruments offering higher yields at acceptable levels of risk. Axis Fixed Income Opportunities Fund is a fixed income fund which will endeavor to generate stable returns by investing in debt & money market instruments across the yield curve & credit spectrum. This fund will have the ability to maintain a relatively higher exposure to fixed income instruments which are not AAA & equivalent. The fund endeavors to take advantage of opportunities arising from the credit spectrum. Historically, the spread between AAA and AA is dynamic and changes over time. The fund manager can dynamically change the portfolio credit composition to take advantage of these opportunities.										

Investment strategy (Contd.)		<p>The fund proposes to take advantage of opportunities arising from the credit spectrum. Some of the strategies that we may follow are as follows:</p> <ol style="list-style-type: none"> 1) Opportunity from credit spreads between AAA and AA rated fixed income instruments 2) Opportunity from migration of ratings <p>The above are some examples of credit strategies currently available in the Indian fixed income markets. The fund will endeavor to use other credit strategies across the spectrum as & when they are available in the Indian markets.</p> <p>Assuming there is an opportunity from the migration of ratings. Through the Axis credit process, we endeavor to avoid taking exposures where there is a risk of downgrade and take exposure in cases where we think there is a potential for an upgrade. The fund will aim to take advantage of these opportunities from credit spreads as well as potential from rating migrations.</p> <p>The fund manager will try to allocate assets of the scheme between various fixed income instruments taking into consideration the prevailing interest rate scenario, the liquidity of the different instruments and maintain a diversified portfolio with the objective of achieving stable risk adjusted returns. While investing, the fund manager will keep in mind the yield structure of different asset classes (e.g. the sovereign yield curve and the corporate bond yield curve) as well as kinks within a particular yield curve (e.g. the different points of the sovereign yield curve).</p> <p>After doing a thorough research on the general macro-economic condition, political environment, systemic liquidity, inflationary expectations, corporate performance and other economic considerations the portfolio duration and credit exposures will be decided.</p>																																				
Risk profile of the scheme	<p>Mutual Fund units involve investment risks including the possible loss of principal.</p> <p>Scheme specific Risk Factors are summarized below:</p> <p>The scheme carries risks associated with investing in debt and money market securities, derivatives, Foreign Securities, securitized debt, short selling and securities lending.</p> <p>Investment in mutual fund units involves investment risks such as trading volumes, settlement risk, liquidity risk and default risk. Trading volume may restrict liquidity. The AMC may choose to invest in unlisted securities which may increase the risk on the portfolio. Also, the value of the Scheme investments may be affected by currency exchange rates, changes in law/policies of the government, taxation laws and political, economic or other developments.</p> <p>Investments in debt and money market instruments are subject to interest rate risk, re-investment risk, basis risk, credit risk, spread risk, prepayment risk, etc.</p> <p>Please read the SID carefully for details on risk factors before investment.</p>	<p>Mutual Fund units involve investment risks including the possible loss of principal.</p> <p>Scheme specific Risk Factors are summarized below:</p> <p>The scheme carries risks associated with investing in debt and money market securities, derivatives, Foreign Securities, securitized debt, short selling and securities lending.</p> <p>Investment in mutual fund units involves investment risks such as trading volumes, settlement risk, liquidity risk and default risk. Risk management strategies	<p>Interest rate risk is managed by meticulous determination of average maturity (which is the expression for change in portfolio value for a basis point change in interest rate) of the portfolio. Extensive analysis of macro-economic conditions is done to form a view on future interest rates and to position the portfolio accordingly. Credit risk is managed by in-depth analysis of issuer (financial/operating performance) with the help of internal and external research. Liquidity risk is addressed by maintaining exposure to cash/cash equivalents and highly liquid instruments.</p>	<p>Interest rate risk is managed by a meticulous determination of the average maturity of the portfolio. CIR /MRD /DP /31/2014 dated November 12, 2014, Depositories shall generate and dispatch a single consolidated account statement for investors (in whose folio the transaction has taken place during the month) having mutual fund investments and holding demat accounts.</p> <p>Consolidation of account statement shall be done on the basis of PAN. In case of multiple holding, it shall be PAN of the first holder and pattern of holding. Based on the PANs provided by the AMCs/MF-RTAs, the Depositories shall match their PAN database to determine the common PANs and allocate the PANs among themselves for the purpose of sending CAS.</p> <p>For PANs which are common between depositories and AMCs, the Depositories shall send the CAS. In other cases (i.e. PANs with no demat account and only MF units holding), the AMCs/ MF-RTAs shall continue to send the CAS to their unit holders in compliance with the Regulation 36(4) of the SEBI (MF) Regulations. In case investors have multiple accounts across the two depositories, the depository having the demat account which has been opened earlier shall be the default depository which will consolidate details across depositories and MF investments and dispatch the CAS to the investor. However, option shall be given to the demat account holder by the default depository to choose the depository through which the investor wishes to receive the CAS.</p> <p>Where statements are presently being dispatched by email either by the Mutual Funds or by the Depositories, CAS shall be sent through email. However, where an investor does not wish to receive CAS through email, option shall be given to the investor to receive the CAS in physical form at the address registered in the Depository system.</p> <p>The AMC shall identify common investors across fund houses by their permanent account number for the purposes of sending consolidated account statement. In case of specific request received from the Unit Holders, the AMC/Fund will provide the Account Statement to the Investors within 5 business days from the receipt of such request. In the event the account has more than one registered holder, the first named Unit Holder shall receive the Account Statement.</p> <p>The word transaction will include purchase, redemption, switch, dividend payout, dividend reinvestment, systematic investment plan, systematic withdrawal plan and systematic transfer plan. The AMC will endeavor to send statement of accounts by e-mail where the Investor has provided the e-mail id. The statement of holding of the beneficiary account holder for units held in demat will be sent by the respective Depository Participants periodically. Additionally, the AMC may at its discretion send Account Statements individually to the investors. However, in case of Unit Holders holding units in the dematerialized mode, the Fund will not send the account statement to the Unit Holders. The statement provided by the Depository Participant will be equivalent to the account statement.</p> <p>Annual Report: Scheme/Plan-wise Annual Report or an abridged summary thereof shall be mailed to all Unit Holders within four months from the date of closure of the relevant accounting year i.e. 31st March each year.</p> <p>Half yearly disclosures: The Mutual Fund shall publish a complete statement of the Scheme portfolio within one month from the close of each half year (i.e. 31st March and 30th September), by way of an advertisement at least, in one National English daily and one regional newspaper in the language of the region where the head office of the Mutual Fund is located. The Mutual Fund may opt to send the portfolio to all Unit holders in lieu of the advertisement (if applicable).</p> <p>The Mutual Fund shall within one month from the close of each half year, that is 31st March and 30th September, host a soft copy of its unaudited financial results on their website.</p> <p>The mutual fund shall publish an advertisement disclosing the hosting of such financial results on their website, in atleast one English daily newspaper having nationwide circulation and in a newspaper having wide circulation published in the language of the region where the Head Office of the Mutual Fund is situated.</p> <p>The Annual Report, portfolio statement and the unaudited financial results will also be displayed on the website of the Mutual Fund (www.axismf.com) and Association of Mutual Funds in India (www.amfiindia.com).</p>

7. Differentiation with existing open ended debt schemes (as on September 30, 2017)	The scheme is not a minor modification of any existing scheme/ product of Axis Mutual Fund. Differentiation is as follows:	
	Axis Short Term Fund	
	Asset Allocation	
	Type of Instrument	Normal Allocation (% of net assets)
	Money market instruments and debt Instruments including government securities, corporate debt, securitized debt and other debt instruments with maturity/average maturity/residual maturity/interest rate resets less than or equal to 375 days or have put options within a period not exceeding 375 days.	30 - 100
	Debt instruments including government securities, corporate debt, securitized debt and other debt instruments with maturity/average maturity/residual maturity/interest rate resets greater than 375 days	0 - 70
	Primary Investment Objective - To generate stable returns with a low risk strategy while maintaining liquidity through a portfolio comprising of debt and money market instruments. However, there can be no assurance that the investment objective of the scheme will be achieved.	
	Investment Strategy - The Fund Manager will try to allocate the assets of the scheme in a diversified portfolio of various high quality Fixed Income Securities to achieve stable returns while having a low risk strategy.	
	The fund manager will seek to look for investment opportunities with the same class of fixed income securities (e.g. government securities) having different maturities (e.g. government securities having a residual maturity of 1 year and 2.5 years) or different classes of Fixed Income Securities with the same maturity profile/residual maturity. (e.g. a government security, an NBFC and a manufacturing corporate security having a residual maturity of 2 years).	
	Differentiation - Endeavor to maintain the modified duration in a range of 3 months to 3 years depending on the interest rate view.

	Axis Dynamic Bond Fund	
	Asset Allocation	
	Type of Instrument	Normal Allocation (% of net assets)
	Debt instruments including GSecs and corporate debt	0 - 100
	Money market instruments	0 - 100
	Units issued by REITs & InvITs	0 - 10
	Primary Investment Objective - To generate optimal returns while maintaining liquidity through active management of a portfolio of debt and money market instruments.	
	Investment Strategy - To maximize returns to the investor through an active management of the portfolio, by elongating the duration of the portfolio in a falling interest rate scenario and reducing the duration at a time when interest rates are moving up.	
	With the discretion to take aggressive interest rate/duration risk calls, this could mean investing the entire net assets in long dated Government securities and debt instruments (carrying relatively higher interest rate risk/duration risk), or on defensive considerations, entirely in money market instruments. Accordingly, the interest rate risk/duration risk of the scheme may change substantially depending upon the Fund's call.	
	Differentiation - Active duration management.

Debt and Money Market instruments	100	
Units issued by REITs & InvITs	0 - 10	
Primary Investment Objective - To generate optimal returns in the medium term while maintaining liquidity of the portfolio by investing in debt and money market instruments.		
Investment Strategy - To invest in a diversified portfolio of high quality debt and money market securities to generate optimal risk adjusted returns in the medium term.		
The fund management team is going to take a medium term view on the interest rate structure. While determining the portfolio duration and credit stance, the fund manager will keep in mind the state of the local economy, inflation numbers as well as the global economic scenario.		
The fund manager will try to allocate assets of the scheme between various fixed income securities taking into consideration the prevailing interest rate scenario, the liquidity of the different instruments and maintain a diversified portfolio with the objective of achieving optimal risk adjusted returns. While investing the fund manager will keep in mind the yield structure of different asset classes (e.g. the sovereign yield curve and the corporate bond yield curve) as well as kinks within a particular yield curve (e.g. the different points of the sovereign yield curve).		
Differentiation - Endeavor to maintain the modified duration in a range of 2-7 years depending on the interest rate view.

Axis Constant Maturity 10 Year Fund		
Asset Allocation		
Type of Instrument	Normal Allocation (% of net assets)	
Government Securities, Treasury Bills, Repo & CBLO	100	
Primary Investment Objective - To generate returns similar to that of 10 year government bonds.		
Investment Strategy - To generate returns similar to the 10 year government bond through investments predominantly in government securities.		
The scheme will endeavor to maintain an average maturity of close to 10 years. The normal range of average maturity for the scheme would be between 9 and 11 years. The scheme does not intend to actively manage the duration. By investing predominantly in government securities, the scheme aims to maintain a high degree of credit quality and liquidity.		
Differentiation - Dedicated to investment in government securities.

Primary investment objective - To generate stable returns by investing in debt & money market instruments across the yield curve & credit spectrum		
Investment strategy - To generate stable returns by investing in debt & money market instruments across the yield curve & credit spectrum. The fund manager will endeavour, through a process of robust credit risk assessment & research, to identify optimum credit opportunities in the market and invest in such instruments offering higher yields at acceptable levels of risk.		
The fund manager will try to allocate assets of the scheme between various fixed income instruments taking into consideration the prevailing interest rate scenario, the liquidity of the different instruments and maintain a diversified portfolio with the objective of achieving stable risk adjusted returns. While investing the fund manager will keep in mind the yield structure of different asset classes (e.g. the sovereign yield curve and the corporate bond yield curve) as well as kinks within a particular yield curve (e.g. the different points of the sovereign yield curve).		
After doing a thorough research on the general macroeconomic condition, political environment, systemic liquidity, inflationary expectations, corporate performance and other economic considerations the portfolio duration and credit exposures will be decided.		
Differentiation - The scheme invests in debt & money market instruments across the credit spectrum.

7. Differentiation with existing open ended debt schemes (as on September 30, 2017) (contd.)	<p>Primary investment objective - To generate regular income through investments in debt & money market instruments, along with capital appreciation through limited exposure to equity and equity related instruments. It also aims to manage risk through active asset allocation.</p> <p>Investment strategy - The Scheme has dual objectives of generating income and capital gains while attempting to manage the risk from the market. In order to achieve the twin objectives, the Scheme intends to follow a topdown and bottom-up investment strategy. The top-down process would lead to the asset-allocation between equities and fixed income and the bottom-up process would lead to construction of the portfolio using specific securities. The Scheme would invest both in equities and fixed income instruments. Allocation between the two asset classes will be done using a quantitative asset allocation methodology. This methodology will be the primary tool to manage the overall risk of the portfolio in such a way as to achieve the objective of managing risk. The quantitative tool has been simulated with a target of limiting the downside to 5% in a calendar year. Within equities and fixed income, the portfolio would be actively managed to optimize returns within the respective asset class.</p> <p>Differentiation - Equity Exposure up to 35% of the net assets.</p> <p>AUM (₹ In crores): 525.29; No. of Folios: 22,134</p>

	<p>Primary Investment Objective - To provide optimal returns and liquidity to the investors by investing primarily in a mix of money market and short term debt instruments which results in a portfolio having marginally higher maturity as compared to a liquid fund at the same time maintaining a balance between safety and liquidity. However, there can be no assurance that the investment objective of the scheme will be achieved.</p> <p>Investment Strategy - The risk-return profile of this fund positions it in between a liquid fund and short duration income fund. The portfolio strategy seeks to increase yield by having a marginally higher maturity and moderately higher credit risk as compared to a liquid fund; whilst maintaining balance between safety and liquidity.</p> <p>The Scheme is likely to have higher maturity than a liquid fund and the Scheme may have some allocation towards instruments with more than 1 year maturity. However, the average maturity for the Scheme will be maintained in the range of 3 months to 12 months depending on the interest rate view. As a result, the Scheme stands to expose to market risk which can get captured partially by "mark to market component" thereby inducing a potential daily volatility. Also, the Scheme will have a mix of credits with a moderately higher credit risk as compared to a liquid fund. The Scheme will always aim at controlling risk by carrying a rigorous credit evaluation of the instruments proposed to be invested in. The credit evaluation will be carried out on the basis of the parameters mentioned above.</p> <p>Differentiation - Endeavor to maintain the average maturity in the range of 3 months to 12 months depending on the interest rate view.</p> <p>AUM (₹ In crores): 2,568.72; No. of Folios: 14,427</p>

- In case of HUF, the Karta needs to sign on behalf of the HUF.
- Applications by minors should be signed by their guardian.
- For Corporates, signature of the Authorised Signatory (from the Authorised Signatory List (ASL)) is required.

5. PAYMENTS

- The AMC intends using electronic payment services (NEFT, RTGS, ECS (Credit), Direct Credit, etc.) to the extent possible for dividends / redemptions for faster realization of proceeds to investors. In case an investor wishes to receive payments vide cheques / demand drafts to be sent using a postal / courier service, please provide appropriate written instructions to the AMC / Registrar for the same.
- Please enclose a cancelled cheque leaf (or copy thereof) in case your investment instrument (pay-in) is not from the same bank account as mentioned under bank account details.
- Any communication, dispatch of redemption / dividend proceeds / account statements etc. would be made by the Registrar / AMC as per reasonable standards of servicing.
- The Debit Mandate is an additional facility available to Axis Bank account holders only.

6. BANK DETAILS

It is mandatory for investors to mention bank account details on the form as per directives issued by SEBI. Applications without this information are liable to be rejected. The Mutual Fund / AMC reserve the right to hold redemption proceeds in case requisite bank details are not submitted.

Option to register multiple bank accounts

The AMC / Mutual Fund has also provided a facility to investors to register multiple bank accounts. By registering multiple bank accounts, investors can use any of their registered bank accounts to receive redemption / dividend proceeds. Any request for a change in bank mandate requires 10 days for validation and verification. Further, these account details will be used by the AMC / Mutual Fund / R&T for verification of instruments (like cheques/DDs/POs) received at the time of subscription / purchase applications to ensure that subscription payments are received only from one of the registered bank accounts. Payments from non-registered bank accounts (called third party payments) will not be accepted (except where permitted as per SEBI regulations). Investors are requested to avail of this facility by filling in the application form for registration of multiple bank accounts available at any of our ISCs / OPAs or on our website www.axismf.com.

Cheques submitted at the time of purchase should be from the beneficiary investors account or from an account mentioned in your Multiple Bank Accounts Registration form (except for minors for amounts less than ₹ 50,000 and Corporates / non-individuals).

Demand drafts submitted at the time of subscription should be accompanied by a banker's certificate clearly stating the investor's name and PAN as well as mentioning that the demand draft has been issued by debiting the investor's own bank account. Pre-funded instruments issued by the bank against cash shall not be accepted for investments of ₹ 50,000 or more. This pre-funded instrument should also be accompanied by a certificate from the banker giving the investor's name, address and PAN.

Payments made through RTGS/NEFT/NECS should be accompanied by a banker's certificate stating that the RTGS/NEFT/NECS payment has been made by debiting the investor's own bank account along with mention of the investor's name and PAN.

7. THIRD PARTY PAYMENTS

When payment is made through instruments issued from a bank account other than that of the investor, the same is referred to as a Third Party payment. Where an investor has opted to register multiple bank accounts (using the 'Multiple Bank Accounts Registration Form'), and purchase payment is made from an account different from what is registered, any one of the following documents need to be provided as proof along with the payment instrument.

- Banker's certificate stating that the investment is from the investor's own bank account along with mention of his name and PAN
 - Bank account passbook or statement mentioning the investor's name / PAN
- Restriction on acceptance of Third Party payments for subscriptions, and exceptions thereto

- In case of payments from a joint bank account, one of the joint holders of the bank account must be the first account holder under the investment application.
- The Asset Management Company shall not accept subscriptions with Third Party payments except in the following situations:
 - Where payment is made by parents/grand parents/related persons on behalf of a minor in consideration of natural love and affection or as gift for a value not exceeding ₹ 50,000 (each regular purchase or per SIP installment). However this restriction will not

be applicable for payment made by a guardian whose name is registered in the records of Mutual Fund in that folio.

- Where payment is made by an employer on behalf of an employee under Systematic Investment Plans through payroll deductions.
- Custodian on behalf of an FI or a client.

Documents to be submitted for exceptional cases

- KYC is mandatory for all investors (guardian in case of minor) and the person making the payment i.e. the third party. Investors and the person making the payment should attach their valid KYC acknowledgement letter to the application form.
- Submission of a separate, complete and valid 'Third Party Payment Declaration Form' from the investors (guardian in case of minor) and the person making the payment i.e. third party. The said Declaration Form shall, inter-alia, contain the details of the bank account from which the payment is made and the relationship with the investor(s). Please contact the nearest OPA/ISC of Axis Mutual Fund or visit our website www.axismf.com for the declaration form.

8. KYC

All Applicants (including POAs and Guardians) are required to be KYC compliant irrespective of the amount of investment. In case you are not KYC certified, please fill in the KYC form (individual or Non-Individual). A KYC acknowledgement letter should be submitted along with application for opening a folio or making an investment. Each holder in the folio must be KYC compliant.

Investors may kindly note that new SEBI Circular issued regarding uniformity in the KYC process was effective from January 1, 2012.

- SEBI has introduced a common KYC Application Form for all the SEBI registered intermediaries, new Investors are therefore requested to use the common KYC Application Form and carry out the KYC process including In-Person Verification (IPV) with any SEBI registered intermediaries including mutual funds. The KYC Application Forms are available on our website www.axismf.com.
- The Mutual Fund shall perform the initial KYC of its new investors and shall also accept the details change form for investors who have done their KYC prior to 31st Dec 11.
- It is mandatory to carry out In-Person Verification(IPV) for processing the KYC of its new / existing investors from January 1, 2012.
- Once the KYC and IPV-In Person Verification has been done with any SEBI registered intermediary, the investor need not undergo the same process again with any another intermediary including mutual funds. However, the Mutual Fund reserves the right to carry out fresh KYC/additional KYC of the investor.
- Existing KYC compliant investors of the Mutual Fund can continue to invest as per the current practice.
- Non-individual investors will have to do a fresh KYC due to significant changes in KYC requirements.
- In accordance with SEBI Circular No. CIR/MIRSD/13/2013 dated December 26, 2013, the additional details viz. Occupation details, Gross Annual Income/network and Politically Exposed Person (PEP)* status mentioned under section 2 & 3 which was forming part of uniform KYC form will now be captured in the application form of the Fund. Also, the detail of nature of services viz. Foreign Exchange/Gaming/Money Lending, etc.,(applicable for first/sole applicant) is required to be provided as part of Client Due Diligence (CDD) Process of the Fund.

The said details are mandatory for both Individual and Non Individual applicants.

*PEP are defined as individuals who are or have been entrusted with prominent public functions in a foreign country, e.g., Heads of States or of Governments, senior politicians, senior Government/judicial/ military officers, senior executives of state owned corporations, important political party officials, etc.

Subsequently, SEBI, vide its circular no. MIRSD/Cir-5/2012 dated April 13, 2012 advised various intermediaries to upload KYC data of its existing customers into the KRA system. While uploading KYC data into the KRA system, intermediaries were also required to highlight such 'Missing/Not Available' KYC information of a customer, which was either not required or not taken previously, but was mandatory as per uniform KYC guidelines issued by SEBI.

In accordance with AMFI Best practices guidelines circular no. 62/2015-16 dated September 18, 2015, investors may note the following:

It is mandatory for all new/existing investors to provide additional KYC information such as Income details, Occupation, association with politically exposed person, net worth etc. as mentioned in the application form. Subscription requests, without providing these details, are liable to be rejected. No subscriptions (whether fresh or additional) and switches pertaining to 'KYC on-hold' cases are accepted, unless the investor / unitholder also submits relevant KYC missing / updated information, which is appropriately updated on the KRA - KYC.

Further, it is mandatory for existing customers to complete In-Person Verification process and provide the missing KYC information failing which their applications / transaction requests for additional subscription (including switches) is liable to be rejected.

8A. Operationalisation of Central KYC Records Registry (CKYCR)

Central Registry of Securitisation and Asset Reconstruction and Security interest of India ('CERSAI') has been authorised by Government of India to act as Central KYC Records Registry under Prevention of Money-Laundering (Maintenance of Records) Rules, 2005 ('PMLA Rules'). SEBI vide its circular ref. no. CIR/MIRSD/66/2016 dated July 21, 2016 and circular ref. no. CIR/MIRSD/120/2016 dated November 10, 2016 has prescribed that the Mutual Fund/ AMC should capture KYC information for sharing with CKYCR as per the KYC template prescribed by CERSAI.

In accordance with the aforesaid SEBI circulars and AMFI best practice guidelines for implementation of CKYC norms with effect from February 1, 2017:

- Individual investors who have never done KYC process under KRA regime i.e. a new investor who is new to KRA system and whose KYC is not registered or verified in the KRA system shall be required to provide KYC details in the CKYC Form to the Mutual Fund/ AMC.
- Individual investor who fills old KRA KYC Form, should provide additional / missing information using Supplementary KYC Form or fill CKYC Form.
- Details of investors shall be uploaded on the system of CKYCR and a 14 digit unique KYC identifier ('KIN') will be generated for such customer.
- New investors, who have completed CKYC process & have obtained KIN may quote their KIN in the application form instead of submitting CKYC Form/ Supplementary KYC Form.
- AMC/ Mutual Fund shall use the KIN of the investor to download the KYC information from CKYCR system and update its records.
- If the PAN of investor is not updated on CKYCR system, the investor should submit self-certified copy of PAN card to the Mutual Fund/ AMC.

The CKYC Form and Supplementary KYC Form are available at Investor Service Centre (ISC) of Axis Mutual Fund and on website www.axismf.com.

The AMC reserves the right to reject transaction application in case the investor(s) fails to submit information and/or documentation as mentioned above. In the event of non compliance of KYC requirements, the Trustee / AMC reserves the right to freeze the folio of the investor(s).

9. ULTIMATE BENEFICIAL OWNERS(S)

SSEBI vide its circular no. CIR/MIRSD/2/2013 dated January 24, 2013 further read with AMFI Best practices guidelines circular no. 62/2015-16 dated September 18, 2015 and other applicable regulations and guidelines, for identification of Beneficial Ownership to be followed by the intermediaries for determination of beneficial owners. A 'Beneficial owner' is defined as a natural person or persons who ultimately own, control or influence a client and/or persons on whose behalf a transaction is being conducted and includes a person who exercises ultimate effective control over a legal person or arrangement. In this regard, all categories of investors (including all new / existing investors / unitholders) (except individuals, companies listed on a stock exchange or majority-owned subsidiary of such companies) are mandatorily required to provide beneficial ownership details for all investments. Failing which, fund reserves the right to reject applications / subscription requests / additional subscription requests (including switches) / restrict further investments or seek additional information from investors who have not provided the requisite information on beneficial ownership. In the event of change in beneficial ownership, investors are requested to immediately update the details with the Fund/Registrar.

22. FOREIGN ACCOUNT TAX COMPLIANCE (FATCA)

FATCA & CRS TERMS & CONDITIONS : Details under FATCA & CRS: The Central Board of Direct Taxes has notified Rules 114F to 114H, as part of the Income- tax Rules, 1962, which Rules require Indian financial institutions such as the Bank to seek additional personal, tax and beneficial owner information and certain certifications and documentation from all our account holders. In relevant cases, information will have to be reported to tax authorities / appointed agencies. Towards compliance, we may also be required to provide information to any institutions such as withholding agents for the purpose of ensuring appropriate withholding from the account or any proceeds in relation thereto. Should there be any change in any information provided by you, please ensure you advise us promptly, i.e., within 30 days.

Please note that you may receive more than one request for information if you have multiple relationships with Axis Mutual Fund or its group entities. Therefore, it is important that you respond to our request, even if you believe you have already supplied any previously requested information.

FATCA & CRS INSTRUCTIONS : If you have any questions about your tax residency, please contact your tax advisor. If you are a US citizen or resident or greencard holder, please include United States in the foreign country information field along with your US Tax Identification Number.

It is mandatory to supply a TIN or functional equivalent if the country in which you are tax resident issues such identifiers. If no TIN is yet available or has not yet been issued, please provide an explanation and attach this to the form.

SEBI issued its circular no. CIR/MIRSD/2/2015 dated August 26, 2015 inter alia advising intermediaries to take necessary steps to ensure compliance with the requirements specified in the rules and guidelines specified by the Government of India. AMFI also issued its best practices guidelines circular no. 63/2015-16 dated September 18, 2015 on this matter. The AMC and the Mutual Fund are required to adhere to various requirements inter alia including submission of various information / details relating to the investors in the schemes of the mutual fund, to authorities, as specified under the applicable laws. Accordingly, the following aspects need to be adhered to :

- With effect from November 1, 2015 all investors will have to mandatorily provide the information and declarations pertaining to FATCA/CRS for all new accounts opened, failing which the application / transaction request shall be liable to be rejected.
- For all new accounts opened by investors, from September 1, 2015 till October 31, 2015, MFs need to obtain relevant FATCA declarations. These details / certification need to be obtained by December 31, 2015, particularly in cases where, after Indicia search, a positive match is found with any US indicia. If self-certification is not provided by an investor or the reasonableness of self-certification cannot be confirmed, the account is treated as reportable.
- For accounts opened between July 1, 2014 and August 31, 2015, the Government of India vide its press release dated April 11, 2017 has required that all efforts should be made by the AMC to obtain the self-certification from the investor. Further, in case self-certifications are not provided by unitholders till April 30, 2017, the folios would be blocked, which would mean that the AMC would prohibit the unitholder from effecting any transaction with respect to such folios. For pre-existing accounts (as on December 31, 2015 in case of CRS and June 30, 2014 in case of FATCA), specific investors above specified threshold limits would be required to provide self-certification forms.

Investors are requested to provide all the necessary information / declarations to facilitate compliance, considering India's commitment to implement CRS and FATCA under the relevant international treaties.

Please consult your professional tax advisor for further guidance on your tax residency, if required.

In case customer has the following Indicia pertaining to a foreign country and yet declares self to be non-tax resident in the respective country, customer to provide relevant Curing Documents as mentioned below:
