ASSET ALLOCATION PATTERN OF THE SCHEME

Instruments	Indicative Allocation (% of total assets)		Risk Profile

In terms of SEBI /IMD/Circular No. 2/147132/08 dated December 11, 2008, the scheme shall invest only in such securities which mature on or before the date of the maturity of the scheme. The investment manager would have the flexibility to invest the debt component into floating rate debt securities in order to reduce the impact of rising interest rates in the economy. Derivatives may be used to create synthetic fixed rate bond/ floating rate bonds. Gross investments in securities under the Scheme which includes Debt securities, Money Market Instruments and derivatives will not exceed 100% of the net assets of the Scheme. Subject to the limits as contained in Schedule VII to the SEBI (Mutual Funds) Regulations, 1996, the scheme reserves the right to invest its entire allocation in debt and money market securities in any one of the fixed income security classes. The sum total of derivative contracts outstanding shall not exceed 50% of the net asset of the scheme.

The AMC reserves the right to change the above Pattern in the interest of the investors depending on the market conditions for a short term period of defensive consideration. In case any deviation from the asset allocation, the AMC shall rebalance within a period of 30 days subject to market conditions and in the interest of the investors. However, if the same has not been rebalanced the details of same shall be placed before the Board of Reliance Capital Trustee Co. Limited.

RCAM will ensure that total exposure of the scheme in a particular sector (excluding investments in Bank CDs, CBLO, G-Secs, T-Bills and AAA rated securities issued by Public Financial Institutions and Public Sector Banks and such other instruments if any, as may be specified by SEBI from time to time) shall not exceed 30% or such other percentage of the net assets of the scheme, as prescribed by SEBI from time to time, unless the scheme has specifically been exempted from the requirement by SEBI.

An additional exposure to financial services sector (over and above the limit of 30%) not exceeding 10% of the net assets of the scheme shall be allowed by way of increase in exposure to Housing Finance Companies (HFCs) rated AA and above and registered with National Housing Bank (NHB). However, such total investment/ exposure in HFCs shall not exceed 30% of the net assets of the scheme or such other percentage of the net assets of the scheme, as prescribed by SEBI from time to time.

WHERE WILL THE SCHEME INVEST?

1. Under the Scheme, the investment managers would have the flexibility to invest the debt component into floating rate debt securities in order to reduce the impact of rising interest rates in the economy.
2. Derivatives may be used to create synthetic fixed rate bond/ floating rate bonds. Gross investments in securities under the Scheme which includes Debt securities, Money Market Instruments and derivatives will not exceed 100% of the net assets of the Scheme.
3. Subject to the limits as contained in Schedule VII to the SEBI (Mutual Funds) Regulations, 1996, the scheme reserves the right to invest its entire allocation in debt and money market securities in any one of the fixed income security classes.
4. Investments in rated fixed income securities will be in securities rated by at least one recognized rating agency. Investments in unrated securities will be made with the approval of the Investment Committee of RCAM, within the parameters laid down by the Board of Directors of the AMC & the Trustees.
5. Money Market instruments includes commercial papers, commercial bills, treasury bills, Corporate Debt, Government Securities having residual maturity up to one year, call or notice money certificate of deposit, and any other like instruments as specified by the Reserve Bank of India from time to time.
6. Short-term debt considerations for this scheme include maintaining an adequate float to meet expenses, and other liquidity needs.
7. Short Term Deposit may also be made in the scheme as per the regulations laid down by SEBI.
8. The Fund may also enter into "Repo" (Repos including repo in corporate bonds), hedging or such other transactions as may be allowed to Mutual Funds from time to time.

In line with SEBI circular dated November 11, 2011 investments in corporate bond repo shall be made basis the policy approved by the Board of RCAM and RCTC. The significant features are as follows:

- i. As specified in the SEBI Circular dated November 15, 2012, the base of eligible securities for mutual funds to participate in repo in corporate debt securities, is from AAA rated to AA and above rated corporate debt securities.
- ii. Category of counterparty & Credit rating of counterparty RMF schemes shall enter in lending via Repo only with Investment Grade counterparties (as required by SEBI Regulations) which are part of the approved debt universe (i.e. on which we have limits).

- iii. Restriction pertaining to tenor of Collateral For FMPs, the tenor of the collateral should expire before the maturity of the scheme. For other schemes, the collateral should comply with the maturity restrictions placed, if any, for those schemes in the Debt Investment Policy.
- iv. Applicable haircut RBI in its circular dated November 09, 2010 had indicated the haircut to be applied for such transactions as follows:

S.No	Rating	Minimum Haircut
1	AAA	10%
2	AA+	12%
3	AA	15%

The above haircuts are minimum stipulated haircuts where the repo period is overnight or where the remarking frequency (in case of longer tenor repos) is daily. The RBI had earlier recommended a haircut of 25%. It is proposed that we maintain a minimum haircut of 15% for all repo contract of less than 3 months, and 25% for other contracts, unless a lower haircut is approved by the Investment Committee. The Fund Manager may refer to the rating-haircut matrix published by FIMMDA, to determine the appropriate haircut.

It is the intention of the scheme to trade in the derivatives market as per the Regulations.
11. The above-mentioned securities could be listed, unlisted, secured, unsecured, rated or unrated and may be acquired through initial public offerings, secondary market offerings, private placements, rights offers etc.
12. To avoid duplication of portfolios and to reduce expenses, the Scheme may invest in any other schemes of the Fund. 13. While it is the intention of the Scheme to maintain the maximum exposure guidelines provided in the table above, there may be instances when these percentages may be exceeded. Typically, this may occur while the Scheme is new and the corpus is small thereby causing diversification issues.
14. Investments may be in listed or unlisted debt instruments, as permitted under SEBI Regulations. These would cover primary / secondary market purchases, Public Offers, private placements, rights offers, etc., subject to SEBI Regulations.
15. Securitised debt, pass through obligations, various types of securitisation issuances including but not limited to Asset Backed Securitisation, Mortgage Backed Securitisation, single loan securitisation and other domestic securitisation instruments, as may be permitted by SEBI / RBI from time to time.

The instruments may be rated / unrated and listed / unlisted. In cases where the debt instrument is unrated, specific approval from the Investment Committee of RCAM shall be obtained. However, the same shall be subject to limitations as contained in clause 1 and 1A, reproduced herein below, of Schedule VII to SEBI (Mutual Funds) Regulations, 1996.
17. A mutual fund scheme shall not invest more than 15% of its NAV in debt instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the Act. 18. A mutual fund scheme shall not invest more than 10% of its NAV in unrated debt instruments issued by a single issuer and the total investment in such instruments shall not exceed 25% of the NAV of the scheme. All such investments shall be made with the prior approval of the Board of Trustees and the Board of asset management company.
19. The final portfolio will depend on the availability and desirability of assets in terms of maturity profile, asset quality and yields. The portfolio formulation is a dynamic process and thus, an instrument which is attractive today may not be attractive tomorrow.
20. The scheme may invest in the liquid schemes launched by SEBI registered Mutual Fund or schemes that invest predominantly in money market instruments / securities.

(i) Credit Evaluation Policy for investments in debt securities

Credit evaluation is a continuous process. It applies not only for issuers where investments are being evaluated for the first time but also for those where we already have credit exposures.

In a detailed credit evaluation process, the following aspects are covered.

1. An in-depth review of the sector in which company operates. In this process, research team also measures the micro and macro risks associated with the sector and its possible impact on the overall business environment of the issuer. In addition, issuer's market position is evaluated vis-à-vis competition.

2. Issuer analysis involves both qualitative and quantitative aspects.
 - a. Qualitative analysis is related to quality of management, corporate governance, promoter background, parents support etc. Any synergy / cross dependence with any of the other promoter companies is also scrutinized.
 - b. Quantitative analysis is related with balance sheet management, profitability indicators, ratio analysis, capex programmes, growth plans, leverage and cash management policy etc.
3. The due diligence process involves both primary and secondary sources for research.
 - a. Secondary sources of information like publicly available data including annual reports and other public filings, rating and other research reports, industry research reports are studied in detail.
 - b. Primary research activities like direct interaction with the issuer at various levels, interaction with the rating agencies, the company's bankers, competitors in the industry and stock market participants (market intelligence), is given a very high weightage.
4. Both for plain vanilla transactions and especially for structured transactions, legal due diligence is an integral part of the overall risk evaluation policy. Depending on the scope and complexity of transactions both internal as well as external legal exercises are undertaken.

Based on the above analysis, the credit research team presents a case for investing / avoiding investments for any new issuer / structure. Post these discussions formal proposals are prepared for issuers / structures where limits are being sought.

The approval for such limits is sought, based on certain criterion that is laid out as part of the investment policy. Depending on the rating, tenor, and proposed exposures, approvals are taken at the Head of Fixed Income / Investment Committee / Board levels.

As mentioned earlier, credit evaluation is a continuous exercise. For all issuers / structures where we have current exposures regular evaluation is carried out on a periodic basis. The periodicity of such evaluation depends on the exposure, credit comfort on the said issuer / structure and the overall credit environment.

Apart from regular credit updates both internally and at the Investment Committee levels, the board is also appraised on a periodic basis, on all the credit exposures, their performance and the credit department's views on them going forward.

(ii) list of sectors where rcam / rmf would not be investing

The scheme will not invest in real estate sector and airline sector.

(iii) Type of instruments in which the schemes propose to invest

For the type of instruments in which the schemes propose to invest viz. CPs, CDs, Treasury bills etc. is detailed in where will the scheme invest - Point 1 to 20

(iv) Intended portfolio allocation

Disclose the floors and ceilings within a range of 5% of the intended allocation (in %) against each sub asset class/credit rating as mentioned below:

Credit Rating Instruments	A1+	AAA	AA	A	BBB	NA
CDs						
CPs						
NCDs / Bonds		65%-70%	30%-35%

The sector restriction applicable to the scheme is replicated below under point number 6.

It may be noted that detailing of credit rating/instruments shall be made similar to the current format as indicated above

There shall be no variations between intended portfolio allocation as may be issued at the time of launch and final portfolio except on account of

1. The Scheme shall endeavour to invest in instruments having credit rating as indicated above or higher.

As per SEBI circular CIR/MIRSD/4/2011 dated June 15, 2011, Modifier "+"(plus) or "-"(minus) can be used with the rating symbols as they reflect the comparative standing within the category. For eg: in case AA has been mentioned, it will include AA- as well as AA+. In case an instrument has more than one publicly available rating, the more conservative rating will be considered for the purpose of investment.

For external factors such as revision in credit rating of instruments, valuation of security, etc. It may be noted that

- All the investment rating etc will be considered at the time of making the investments only i.e at the time of deployment (for the purpose of comparison).
- Positive movement of rating for a particular instrument may be continued to

be allowed. However, in case of downgrades of a particular instrument, the portfolio manager shall rebalance the portfolio within a period of 30 days, provided such a rebalancing is possible.

2. In case desired maturity and credit quality CP/NCDs are not available or also on the basis of the risk reward analysis, the Plan(s) may invest in Bank CDs of highest rating (A1+ or equivalents)/CBLOs/Reverse Repos/Government Securities /T-Bills /Liquid Schemes. Such deviation may continue till maturity, if suitable instruments of desired credit quality are not available.

3. Further, the above allocation may vary during the tenure of the Plan. Some of these instances are: (i) Coupon inflow / principal inflow / unexpected cash flow during the tenure of the scheme (ii) the instrument is called or bought back by the issuer (iii) in anticipation of any adverse credit event (iv) Non availability of any instrument and on risk reward analysis. In case of such deviations, the Plans may invest in Bank CDs (A1+ or equivalents) / CBLOs/ Reverse Repos/ G-sec / T-Bills / Liquid schemes. Such deviation may continue till maturity, if suitable instruments of desired credit quality are not available. In case where cash is generated in the above instances and is deployed in short term deposits, such deployment will only be for temporary parking in line with SEBI regulations.

4. In case of individual securities maturity prior to the maturity date of the scheme and at the time of construction of the portfolio, investments may be made in cash and cash equivalents such as CBLO, Repo, T-Bills, Liquid Schemes, CDs and short term bank Deposits

5. In case where investments in any Unrated Instruments is indicated and if they are not available, the Plan(s) may invest in Bank CDs having credit rating indicated in the table above. The Plan shall not invest more than 10% of its NAV in unrated debt instruments issued by a single issuer and the total investment in unrated instruments shall not exceed 25% of the NAV of the Plan.

6. RCAM will ensure that total exposure of the scheme in a particular sector (excluding investments in Bank CDs, CBLO, G-Secs, T-Bills and AAA rated securities issued by Public Financial Institutions and Public Sector Banks and such other instruments if any, as may be specified by SEBI from time to time) shall not exceed 30% or such other percentage of the net assets of the scheme, as prescribed by SEBI from time to time.

An additional exposure to financial services sector (over and above the limit of 30%) not exceeding 10% of the net assets of the scheme shall be allowed by way of increase in exposure to Housing Finance Companies (HFCs) rated AA and above and registered with National Housing Bank (NHB). However, such total investment/ exposure in HFCs shall not exceed 30% of the net assets of the scheme or such other percentage of the net assets of the scheme, as prescribed by SEBI from time to time.

Further, to clarify please note that all the above mentioned provisions and investments made in line with the above mentioned circumstances/variations are independent of this scenario (30% sector limit and exceptions on the same as detailed in point No. 6).

7. The range as indicated in the intended portfolio allocation depending on the risk return profile of the portfolio and subject to the availability of the securities, the fund manager may increase the allocation for AAA rated securities, while ensuring range of other securities is proportionately adjusted.

For the purpose of achieving / reverting back to desired portfolio allocation, wherever any time lines are mentioned, the fund manager will endeavor to achieve the same, on best effort basis and in the best interest of the investors taking into account market conditions and availability of desired credit and maturity.

It may be noted that the intended portfolio allocation will be determined at the time of launch of the scheme whereas the final portfolio for the purpose of determining deviations, if any, will be considered after 15 business days from the allotment of the scheme. Basis the same, RCAM will report in the next meeting of Board of Directors of Reliance Capital Asset Management Limited (RCAM) and Reliance Capital Trustee Co Limited the publicized percentage allocation and final portfolio. For unlisted / non traded securities, where sector classification does not exist, RCAM will have the discretion to decide the classification as per their best judgment.

Pursuant to the SEBI Circular No. SEBI/IMD/CIR No. 1/ 91171 /07 dated April 16, 2007, where the cash in the scheme is parked in short term deposits of Scheduled Commercial Banks pending deployment, the scheme shall abide by the following guidelines:

- "Short Term" for parking of funds shall be treated as a period not exceeding 91 days.
- Such short-term deposits shall be held in the name of the Scheme.
- The scheme shall not park more than 15% of the net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with prior approval of the Trustee.
- Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- The scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
- The scheme shall not park funds in short term deposit of a bank, which has invested in the Scheme.
- RCAM will not charge any investment management and advisory fees for parking of funds in short term deposits of scheduled commercial banks. The aforesaid limits shall not be applicable to term deposits placed as margins for trading in cash and derivatives market.

WHAT ARE THE INVESTMENT STRATEGIES?

The fund management team will endeavor to maintain a consistent performance in the scheme by maintaining a balance between safety, liquidity and profitability aspects of various investments. The fund manager will try to achieve an optimal risk return balance for management of the fixed income portfolios.

The investments in debt instruments carry various risks like interest rate risk, liquidity risk, default risk, purchasing power risk etc. While they cannot be done away with, they can be minimized by diversification and effective use of hedging techniques.

The fund management team will take an active view of the interest rate movement by keeping a close watch on various parameters of the Indian economy, as well as developments in global markets.

Investment views / decisions will be taken on the basis of the following parameters:

1. Prevailing interest rate scenario
2. Quality of the security / instrument (including the financial health of the issuer)
3. Maturity profile of the instrument
4. Liquidity of the security
5. Growth prospects of the company / industry
6. Any other factors in the opinion of the fund management team

Risk Mitigation Factor /Control:

The Fund Management proposes to use analytic risk management tools like VAR / convexity/ modified duration for effective portfolio management.

RISK PROFILE OF THE SCHEME:

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:

i) Schemes investing in Bonds:

Investors of the Scheme should be aware of the risks generally associated with investments in the fixed income and money market instruments. Given below are some of the common risks associated with investments in fixed income and money market securities.

- Interest Rate Risk:** As with all debt securities, changes in interest rates will affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of longer-term securities generally fluctuate more in response to interest rate changes than do shorter-term securities. Interest rate movements in the Indian debt markets can be volatile leading to the possibility of large price movements up or down in debt and money market securities and thereby to possibly large movements in the NAV.
- Liquidity or Marketability Risk:** This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is characteristic of the Indian fixed income market.
- Credit Risk:** Credit risk or default risk refers to the risk which may arise due to default on the part of the issuer of the fixed income security (i.e. will be unable to make timely principal and interest payments on the security). Because of this risk debentures are sold at a yield spread above those offered on Treasury securities, which are sovereign obligations and generally considered to be free of credit risk. Normally, the value of a fixed income security will fluctuate depending upon the actual changes in the perceived level of credit risk as well as the actual event of default.
- Reinvestment Risk:** This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme or from maturities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk refers to the fall in the rate for reinvestment of interim cash flows.

(ii) Risks associated with Investing in Derivatives

- Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is a possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counterparty") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor.
- The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

(iii) Risk Associated with Securitised Debt

As with any other debt instrument, the following risk factors have to be taken into consideration while investing in PTCs:

- Credit Risk**
Since most of the PTCs are drawn from a cherry picked pool of underlying assets, the risk of delay / default due to poor credit quality is low. Further most of the PTCs enjoy additional cashflow coverage in terms of subordination by another lower class of PTCs or in terms of excess cash collateralization.
- Liquidity Risk**
Historically the secondary market volume of securitised papers has been limited. This could limit the ability of the fund to resell them. Secondary market trades could be at a discount or premium depending upon the prevailing interest rates.

c. Price Risk / Interest Rate Risk

The price risk of these instruments shall be in line with the maturity / duration of such instruments. However given the fact that these instruments will have a maturity profile upto 2 years, the duration risk is relatively less.

Domestic Securitised debt can have different underlying assets and these assets have different risk characteristics. These may be as given in the following example:

Security 1 - Backed by receivables of personal loans originated by XYZ Bank Specific Risk Factors: Loss due to default and/or payment delay on Receivables, Premature Termination of Facility Agreements, Limited loss cover, Delinquency and Credit Risk, Limited Liquidity and Price Risk, Originator/Collection Agent Risk, Bankruptcy of the Originator, Co-mingling of funds Security 2 - Senior Series Pass Through Certificates backed by commercial vehicles and two-wheeler loan and loan receivables from ABC Bank Limited

(iv) Risks associated with Listing of Units

Listing of the units of the fund does not necessarily guarantee their liquidity and there can be no assurance that an active secondary market for the units will develop or be maintained. Consequently, the Fund may quote below its face value / NAV.

There have been times in the past, when settlements have been unable to keep pace with the volume of securities transactions, making it difficult to conduct further transactions. Delays or other problems in settlement of transactions could result in temporary periods when the assets of the Scheme are not invested and no return is earned thereon.

(v) Risk factors associated with repo transactions in corporate bonds -

- The market for the aforesaid product is over the counter (OTC) and illiquid. Hence, repo obligations cannot be easily sold to other parties. If a counterparty fails, the scheme would have to take recourse to the collateral provided. If a counterparty fails to repay and the value of the collateral falls beyond the haircut, then the Scheme would be exposed to a loss of interest or principal
- Further, the exposure to debt securities provided as collateral, and the issuer of the debt securities makes a default, the scheme may lose the whole, or substantial portion of the amount .

The liquidity and valuation of the Scheme's investments due to its holdings of unlisted securities may be affected if they have to be sold prior to their target date of divestment

13. **Prevention of Money Laundering and Know Your Client (KYC)**
In order to reduce hardship and help investors dealing with SEBI intermediaries, SEBI issued three circulars – MIRSD/SE/Cir-21/2011 dated October 05, 2011, MIRSD/Cir-23/2011 dated December 02, 2011 and MIRSD/Cir-26/2011 dated December 23, 2011 informing SEBI registered intermediaries as mentioned therein to follow, with effect from January 01, 2012, a uniform KYC compliance procedure for all the investors dealing with them on or after that date. SEBI also issued KYC Registration Agency ("KRA") Regulations 2011 and the guidelines in pursuance of the said Regulations and for In-Person Verification ("IPV").
All investors (individual and non-individual) are required for KYC compliance. However, applications should note that minors cannot apply for KYC compliance and any investment in the name of minors should be through a Guardian, who should be KYC compliant for the purpose of investing with a Mutual Fund. Also applicants/ unit holders intending, to apply for units currently holding units and operating their Mutual Fund folios through a Power of Attorney (PoA) must ensure that the issue of PoA and the holder of the PoA must mention their KYC compliance status at the time of investment. PoA holders are not permitted to apply for KYC compliance on behalf of the issuer of the PoA. Separate procedures are prescribed for change in name, address, and other KYC related details, should the applicant desire to change such information. POS will extend the services of effecting such changes.
In line with the SEBI circular No. MIRSD/Cir-5/2012 dated April 13, 2012 and various other guidelines issued by SEBI on the procedural matters for KYC Compliances, the Investors are requested to note the following additional provisions shall be applicable for "KYC Compliances" with effect from December 1, 2012:
 - 1) In case of an existing investor of RMF and who is already KYC Compliant under the erstwhile centralized KYC with CVL (CVLMF) then there will be no effect on subsequent Purchase/Additional Purchase (or ongoing SIPs/STPs etc) in the existing folios/accounts which are KYC compliant. Existing Folio holder can also open a new folio with Reliance Mutual Fund with the erstwhile centralized KYC
 - 2) In case of an existing investor of Reliance Mutual Fund and who is not KYC Compliant as per our records, the investor will have to submit the standard KYC Application forms available in the website www.cvlkra.com along with supporting documents at any of the SEBI registered intermediaries at the time of purchase / additional purchase / new registration of SIP/STP etc. In Person Verification (IPV) will be mandatory at the time of KYC Submission. This uniform KYC submission would be a one-time submission of documentation.
 - 3) Investors who have complied with KYC process before December 31, 2011 (KYC status with CVL-KRA as "MF - VERIFIED BY CVLMF") and not invested in the schemes of Reliance Mutual Fund i.e not opened a folio earlier, and wishes to invest on or after December 01, 2012, such investors will be required to submit 'missing/not available' KYC information and complete the IPV requirements.
Update of 'missing / not available' KYC information along with IPV is currently a one-time requirement and needs to be completed with any one of the mutual funds i.e. need not be done with all the mutual funds where investors have existing investments. Once the same is done then the KYC status at CVL-KRA will change to 'Verified by CVL KRA' after due verification. In such a scenario, where the KYC status changes to 'Verified by CVL KRA', investors need not submit the 'missing/not available' KYC information to mutual funds again.
Individual Investors are required to submit 'KYC Details Change Form' issued by CVL-KRA available on their website www.cvlkra.com.
In case of Non Individual investors, complied with KYC process before December 31, 2011, KYC needs to be done afresh due to significant and major changes in KYC requirements.
Investors to provide the complete details in the KYC application form along with the required documents (for individual investors or non-individual investors as appropriate). The said form is available on RMF's website i.e. www.reliancecmutual.com or on the website of Association of Mutual Funds in India i.e. www.amfiindia.com or on the website of any authorised KRA's.
14. Payment should be made by a single cheque/DD and must be payable locally, in the city where the official collection centre of RMF is located / where the application is submitted. Out station cheques/ DDs or cash will not be accepted.
 - The applications (including Switches/transfers from other eligible Reliance Mutual Fund Schemes / Plans) will be accepted at all the Designated Investor Service Centers of Reliance Mutual Fund (i.e. Branches of Reliance Capital Asset Management Limited & Karvy Computershare Private Limited) mentioned in the KIM.
 - The Cheque/DD should be crossed/ marked "Account payee" and drawn in favour of "Reliance Fixed Horizon Fund"
Reliance Mutual Fund will not accept Third Party Payments for subscriptions. When payment is made from a bank account other than that of the beneficiary investor, the same is referred to as a "Third Party Payment". In case of subscription with joint holders, the first holder is considered as the beneficiary investor.
15. Please mention the application serial no. on the reverse of the cheque/demand draft tendered with the application.
16. In case payment is made through Demand Draft or Bankers Cheque or Indian Rupee draft purchased abroad or from FCNR / NRE A/c., an Account Debit Certificate from the Bank issuing the draft, confirming the debit should be submitted. For subscription made by NRE / FCNR Account cheques, the application forms must be accompanied with a photocopy of the cheque or Account Debit Letter
