INDEPENDENT AUDITOR'S REPORT

To the Members of Vikram Solar Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of Vikram Solar Limited (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") comprising of the consolidated Balance sheet as at March 31 2023, the consolidated Statement of Profit and Loss, including other comprehensive income, the consolidated Cash Flow Statement and the consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2023, their consolidated loss including other comprehensive income, their consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Financial Statements' section of our report. We are independent of the Group in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Emphasis of Matter

We draw attention to the following notes of the Consolidated Financial Statements:

Note 57 regarding payment of safeguard duty amounting to Rs.1485.20 which has been considered as receivable in the financial statements since the matter is subjudice and based on legal opinion obtained by the Company, the Company has an arguable case on merits, as more fully described therein. Necessary adjustments in the financials will be made based upon the legal outcome of the matter.

Note 58 regarding amount of Rs.833.97 millions (included in Trade Receivables in the Financial Statements) which has been withheld/recovered by certain customers related to EPC contracts on account of Liquidated damages, generation loss etc. which the Company has not acknowledged and the matter has been referred to Arbitration/court as per the terms of the respective contracts. The management is hopeful of resolution of the matter in favour of the Company and necessary adjustments will be made based upon the outcome of the arbitration proceedings.

Note 61 regarding remuneration paid to the Managing Director and Executive Directors of the Holding Company, during the year ended March 2023 which has exceeded the limit prescribed under section 197 of the Companies Act, 2013 by Rs. 13.67 millions which is subject to approval of the Shareholders of the Company. Pending such approval, no adjustment has been made in the financial statements. Our opinion is not modified in respect of the above matters.

Other Information

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133

of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.

Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates and joint ventures/joint operations to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group of which we are the independent auditors and whose financial information we have audited, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matters

We did not audit the financial statements and other financial information, in respect of six subsidiaries whose financial statements include total assets of Rs.295.62 millions as at March 31,2023 and total revenues of Rs.0.90 millions and net cash outflow of Rs. 1.75 millions for the year ended on that date. These financial statements and other financial information have been audited by other auditors, whose financial statements, other financial information and auditor's reports have been furnished to us by the management. Our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, in so far as it relates to the aforesaid subsidiaries is based solely on the report(s) of such other auditors.

Certain of these subsidiaries are located outside India whose financial statements and other financial information have been prepared in

accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Company's management has converted the financial statements of such subsidiaries located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Company's management. Our opinion in so far as it relates to the balances and affairs of such subsidiaries located outside India is based on the report of other auditors and the conversion adjustments prepared by the management of the Company and audited by us.

The accompanying consolidated financial statements include unaudited financial statements and other unaudited financial information in respect of 2 stepdown subsidiaries located outside India, whose financial statements and other financial information reflect total assets of Rs. 18.75 millions as at March 31, 2023 and total revenues of Rs. Nil millions and net cash outflows of Rs 0.15 millions for the year ended on that date. These unaudited financial statements and other unaudited financial information have been furnished to us by the management. Our opinion, in so far as it relates amounts and disclosures included in respect of these subsidiaries, in so far as it relates to the aforesaid subsidiaries is based solely on such unaudited financial statement and other unaudited financial information. In our opinion and according to the information and explanations given to us by the Management, these financial statements and other financial information are not material to the Group.

Our opinion above on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements and other financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we report that there are no qualifications or adverse remarks by the respective auditors in the Companies (Auditors Report) Order (CARO) reports of the Companies included in the Consolidated Financial Statements. Accordingly, the requirement to report on clause 3(xxi) of the Order is not applicable to the Holding Company.

As required by Section 143(3) of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of subsidiaries, as noted in the 'other matter' paragraph we report, to the extent applicable, that:

We/the other auditors whose report we have relied upon have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements;

In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidation of the financial statements have been kept so far as it appears from our examination of those books and reports of the other auditors;

The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Consolidated Cash Flow Statement and Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the consolidated financial statements;

In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;

On the basis of the written representations received from the directors of the Holding Company as on March 31, 2023 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors who are appointed under Section 139 of the Act, of its subsidiary companies, none of the directors of the Group's companies incorporated in India, is disqualified as on March 31, 2023 from being appointed as a director in terms of Section 164 (2) of the Act;

With respect to the adequacy of the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiary companies incorporated in India, and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" to this report;

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Holding Company to its Managing Director and Executive Directors during the year has exceeded the limit prescribed under section 197 of the Companies Act, 2013 by Rs. 13.69 millions, which is subject to the approval of shareholders in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Act.

With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us [and based on the consideration of the report of the other auditors on separate financial statements as also the other financial information of the subsidiaries, as noted in the 'Other matter' paragraph 1:

The consolidated financial statements disclose the impact of pending litigations on its consolidated financial position of the Group its consolidated financial statements – Refer Note 44, 57 and 58 to the consolidated financial statements;

Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;

There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company and its subsidiaries incorporated in India during the year ended March 31, 2023.

iv.a) The respective managements of the Holding Company and its subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiaries respectively that, to the best of its knowledge and belief, as disclosed in the note 62 to the consolidated financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or any of such subsidiaries to or in any other person(s) or entity(ies), including foreign entities (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the respective Holding Company or any of such subsidiaries](“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

b) The respective managements of the Holding Company and its subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiaries respectively that, to the best of its knowledge and belief, as disclosed in the note 62 to the consolidated financial statements, no funds have been received by the respective Holding Company or any of such subsidiaries from any person(s) or entity(ies), including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Holding Company or any of such subsidiaries shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us and that performed by the auditors of the subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our or other auditor’s notice that has caused us or the other auditors to believe that the representations under sub-clause (a) and (b) contain any material mis-statement.

v) No dividend has been declared or paid during the year by the Holding Company, and its subsidiaries companies, incorporated in India.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1 (f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of Vikram Solar Limited of even date)

Report on the Internal Financial Controls with reference to consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of consolidated financial statements of Vikram Solar Limited (the Holding Company) as of and for the year ended 31st March 2023, we have audited the internal financial controls with reference to the financial statements of the Holding Company and its subsidiary companies which are companies incorporated in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its subsidiaries, which are incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Holding Company and its subsidiaries, which are incorporated in India, internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters Paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to these consolidated financial statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to consolidated financial statement, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statement to future periods are subject to the risk that the internal financial control with reference to financial statement may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors, as referred to in Other Matters paragraph, the Holding Company and its subsidiaries, which are companies incorporated in India, have maintained in all material respects, adequate internal financial control system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31st March 2023, based on the internal control with reference to financial statements criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid report under section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements, in so far as it relates to separate financial statements of its subsidiaries, which are companies incorporated in India, is based on the corresponding reports of the auditors of such subsidiaries incorporated in India. Our opinion is not modified in respect of this matter.

Textual information (2)

Auditor's qualification(s), reservation(s) or adverse remark(s) in auditors' report

Opinion We have audited the accompanying consolidated financial statements of Vikram Solar Limited (hereinafter referred to as “the Holding Company”) and its subsidiaries (the Holding Company and its subsidiaries together referred to as “the Group”) comprising of the consolidated Balance sheet as at March 31 2023, the consolidated Statement of Profit and Loss, including other comprehensive income, the consolidated Cash Flow Statement and the consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as “the consolidated financial statements”). In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013, as amended (“the Act”) in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2023, their consolidated loss including other comprehensive income, their consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date. Basis for Opinion We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the ‘Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements’ section of our report. We are independent of the Group in accordance with the ‘Code of Ethics’ issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements. Emphasis of Matter We draw attention to the following notes of the Consolidated Financial Statements: (i) Note 57 regarding payment of safeguard duty amounting to Rs.1485.20 which has been considered as receivable in the financial statements since the matter is subjudice and based on legal opinion obtained by the Company, the Company has an arguable case on merits, as more fully described therein. Necessary adjustments in the financials will be made based upon the legal outcome of the matter. (ii) Note 58 regarding amount of Rs.833.97 millions (included in Trade Receivables in the Financial Statements) which has been withheld/recovered by certain customers related to EPC contracts on account of Liquidated damages, generation loss etc. which the Company has not acknowledged and the matter has been referred to Arbitration/court as per the terms of the respective contracts. The management is hopeful of resolution of the matter in favour of the Company and necessary adjustments will be made based upon the outcome of the arbitration proceedings. (iii) Note 61 regarding remuneration paid to the Managing Director and Executive Directors of the Holding Company, during the year ended March 2023 which has exceeded the limit prescribed under section 197 of the Companies Act, 2013 by Rs. 13.67 millions which is subject to approval of the Shareholders of the Company. Pending such approval, no adjustment has been made in the financial statements. Our opinion is not modified in respect of the above matters.

Disclosure of significant accounting policies [Text Block]

1 General Information

Vikram Solar Limited ("The Company") is a public limited company , incorporated under the provision of Companies Act, applicable in India. The company was incorporated as private limited company and has been converted into a Public Limited Company with effect from August 22, 2017. The Registered office of the Company is situated at The Chambers, 8th Floor, 1865, Rajdanga Main Road, Kolkata – 700107.

Vikram Solar Limited (hereinafter referred as "Parent Company") and its subsidiaries (hereinafter collectively referred as "Group") and is engaged in the business of manufacturing and sale of Solar photovoltaic modules / systems. The manufacturing facilities are situated at Falta Special Economic Zone (SEZ), West Bengal and at Oragadam, Tamil Nadu. The Group is also engaged into setting up of the Solar Power Plant / Systems and provides operation & maintenance services.

These consolidated financial statement were approved and authorized for issue with the resolution of the Board of Directors on June 27, 2023.

2 Basis of Preparation and summary of Significant accounting policies

2.1 Basis of Preparation and Presentation of Consolidated Financial Statements

This note provides a list of the significant accounting policies adopted in the preparation of these consolidated financial statements . These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Statement of Compliance with Ind AS

The consolidated financial statements comply in all material aspects

with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the 'Act') and read with [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

(b)

Basis of measurement

The consolidated financial statements have been prepared on a historical cost convention on accrual basis, except for certain financial instruments measured at fair value as required by relevant Ind AS (Refer Note 2.13 for accounting policy on financial instruments).

All assets and liabilities have been classified as current or non-current as per the Group's operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of operation and the time between the rendering of supply & services and their realization in cash and cash equivalents, the Group has ascertained its operating cycle as twelve months for the purpose of current and noncurrent classification of assets and liabilities.

The consolidated financial statements have been reported in ? million, except for information pertaining to number of shares and earnings per share information.

Principle of consolidation

a) The financial statements of the Parent Company and its subsidiaries are combined on a line by line basis by adding together like items of assets, liabilities, equity, incomes, expenses and cash flow after fully eliminating intra-group balances and intra-group transactions.

b) Profit and losses resulting from intra-group transactions that are recognised in assets, such as inventory and inputs, Plant and equipments, are eliminated in full.

c) Group Companies

The results and financial position of foreign operations (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities are translated at the closing rate at the date of that balance sheet
- income and expenses are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions), and
- All resulting exchange differences are recognised in other comprehensive income.

(c)

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other financial instruments designated as hedges of such investments, are recognised in other comprehensive income. When a foreign operation is sold, the associated exchange differences are reclassified to profit or loss, as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a

foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

d) The audited / unaudited financial statements of foreign subsidiaries have been prepared in accordance with the Generally Accepted Accounting Principles of the Country of incorporation or Ind AS.

e) The difference in accounting policy of the Parent Company and its subsidiaries are not material and there are no material transactions from 1 January, 2023 to 31 March, 2023 in respect of subsidiaries having financial year ended 31st December, 2022.

f) The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events on similar circumstances.

(d)

Significant accounting judgements, estimates and assumptions

The preparation of consolidated financial statements in conformity with Ind AS requires the Management to make judgements, estimates and assumptions that affect the reported amounts and disclosures. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared and reviewed at each Balance Sheet date. Uncertainty about these assumptions and estimates could result in outcomes that may require a material adjustment to the reported amounts and disclosures.

(a) Employee benefit plans - Note 2.14 and 43

Post-employment benefits represents obligation that will be settled in the future and require assumptions to project benefit obligations. Post-employment benefit accounting is intended to reflect the recognition of future benefit cost over the employee's approximate service period, based on the terms of plans and the investment and funding decisions made. The accounting requires the Group to make assumptions regarding variables such as discount rate, rate of compensation increase and future mortality rates. Changes in these key assumptions can have a significant impact on the defined benefit obligations and benefit costs incurred.

(b) Impairment of trade receivables- Note 2.13.a and 10

The risk of delay collection of accounts receivable is primarily estimated based on prior experience with, and the past due status of debtors, while large accounts are assessed individually based on factors that include ability to pay, bankruptcy and payment history. The assumptions and estimates applied for determining the allowance of expected credit loss are reviewed periodically.

(c) Estimation of expected useful lives and residual values of property, plants and equipment - Note 2.2, 3 and 4

Property, plant and equipment are depreciated at historical cost using straight-line method based on the estimated useful life, taking into account their residual value. The asset's residual value and useful life are based on the Group's best estimates and reviewed, and adjusted if required, at each Balance Sheet date taking into consideration the estimated usage of the assets, operating condition of the assets and anticipated technological changes etc.

(d) Fair Value Measurements

When the fair values of financial assets and financial liabilities recorded in the Consolidated Balance Sheet cannot be measured based on quoted prices in active markets, their fair values are measured using valuation techniques which involve various judgements and assumptions.

(e) Contingent Liabilities - Note 2.11 and 44

Contingent Liabilities covering a range of matters are pending against the Group. Due to the uncertainty inherent in such matters, it is often difficult to predict the final outcomes. The cases and claims against the Group often raise difficult and complex factual and legal issues that are subject to many uncertainties and complexities, including but not limited to the facts and circumstances of each particular case and claim, the jurisdiction and the differences in applicable law, in the normal course of business, the Group consults with experts on matters related to litigations. The Group accrues a liability when it is determined that an adverse outcome is probable and the amount of

the loss can be reasonably estimated. In the event an adverse outcome is possible or an estimate is not determinable, the matter is disclosed.

(f) Revenue Recognition

The Company uses the proportionate completion method for recognition of revenue, accounting for unbilled revenue / unearned revenue and contract cost thereon for its turnkey contracts. The percentage of completion is measured by reference to the stage of the projects and contract determined based on the proportion of contract costs incurred for work performed to date bear to the estimated total contract costs. Use of the proportionate completion method requires the Company to estimate the efforts or costs incurred to date as a proportion of the total efforts or cost to be incurred. Significant assumptions are required in determining the stage of completion, the extent of the contract cost incurred, the estimated total contract revenue and contract cost and the recoverability of the contracts. These estimates are based on events existing at the end of each reporting date.

2.2

Property, plant and equipment

Property, Plant and Equipment, Capital Work in Progress is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Cost comprises of purchase price (net of tax credits), borrowing costs, if capitalization criteria are met, commissioning expenses, etc. up to the date the asset is ready for its intended use. Freehold land is not depreciated.

Expenditure directly attributable to expansion projects is capitalized. Administrative, general overheads and other indirect expenditure (including borrowing costs) incurred during the project period which are not related to the project nor are incidental thereto, are expensed off when that are incurred.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to Consolidated statement of Profit and Loss during the year in which they are incurred.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'.

Depreciation methods, estimated useful lives

Depreciation is calculated on a straight-line basis using the rates arrived at based on the useful lives estimated by the management, which are in line with the rates prescribed in the Schedule II of the Companies Act, 2013.

Property, plant and equipment	Useful Life
Building	30 years
Furniture and Fixtures	10 years
Vehicles	8- 10 years
Office Equipment	3-5 years
Plant & Machinery	15 years
Electrical Installation	10 years
Computers & Accessories	3-6 years

The Group, based on technical assessment made by technical expert and management estimate, depreciates certain items of tools, plant & machinery and other handling equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the assets and is recognised in Consolidated statement of profit and loss.

Depreciation on addition to property plant and equipment is provided on pro-rata basis from the date of put to use. Depreciation on sale/deduction from property plant and equipment is provided up to the date preceding the date of sale, deduction as the case may be.

Depreciation methods, useful lives and residual values are reviewed periodically at each financial year end and adjusted prospectively, as appropriate.

The Group has adopted Schedule II to the Companies Act, 2013 which requires identification and determination of separate useful life for each major component of the property, plant and equipment, if they have useful life that is materially different from that of the remaining asset.

The carrying amounts of assets are reviewed at each Balance Sheet date to determine if there is any indication of impairment based on external or internal factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount which represents the greater of the net selling price of assets and their 'value in use'. The estimated future cash flows are discounted to their present value using pre-tax discount rates and risks specific to the asset.

2.3

Intangible Assets

Acquired intangible assets are initially measured at cost and subsequently at cost less accumulated amortization and accumulated impairment loss, if any.

Amortization of Intangible assets

Intangibles are amortized on a straight line basis over the useful lives as given below, which is based on the management estimates.

Intangible assets	Useful life
Computer Software	5 years
Trade Mark & Copyrights	3 years
Product Certifications	3 - 5 years

Intangible assets are amortized over their respective useful economic lives and assessed for impairment whenever there is an impairment indicator. The amortization expense and the gain or loss on disposal, is recognized in the Consolidated statement of profit and loss.

2.4

Rounding off amounts

All amounts disclosed in consolidated financial statements and notes have been rounded off to the nearest million as per requirement of Schedule III of the Act, unless otherwise stated.

2.5

Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalized as part of the cost of asset. All other borrowing costs are recognised as expenditure in the period in which they are incurred.

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

2.6

Foreign Currency Transactions

The Group's consolidated financial statements are presented in INR, which is also the parent Company's functional currency. For each entity the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency. The Group uses the direct method of consolidation and on disposal of a foreign operation the gain or loss that is reclassified to profit or loss reflects the amount that arises from using this method.

Transactions in foreign currencies are initially recorded in reporting currency by the Group at spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of nonmonetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit and loss, respectively).

On consolidation of subsidiaries, the assets and liabilities of foreign operations are translated into INR at the rate of exchange prevailing at the reporting date and their statements of profit or loss are translated at exchange rates prevailing at the dates of the transactions. For practical reasons, the group uses an average rate to translate income and expense items, if the average rate approximates the exchange rates at the dates of the transactions. The exchange differences arising on translation for consolidation are recognised in OCI. On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is recognised in profit or loss.

2.7

Revenue Recognition

Sale of goods and rendering of services

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has concluded that it is the principal in its revenue arrangements with the customer because the Group typically controls the goods or services before transferring them to the customer.

Revenue from sales of goods is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery.

Revenues from turnkey contracts, which are generally time bound fixed price contracts are recognised over the life of the contract using the proportionate completion method with contract costs of determining the degree of completion. Foreseeable losses on such contracts are recognised when probable.

Revenue on installation and commissioning contracts are recognised as per the terms of contract. Revenue from maintenance contracts are recognised pro rata over the period of the contract.

Other Operating revenues

Exports entitlements are recognised when the right to receive such incentives as per the applicable terms is established, in respect of the exports made and when there is no significant uncertainty regarding the ultimate realisation/ utilization of such incentives.

Other Income

Interest Income is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument.

Dividend income is recognised when the Group's right to receive dividend is established by the reporting date.

Insurance claims are accounted for on the basis of claims admitted/ expected to be admitted and to the extent there is no uncertainty in receiving the claims.

2.8

Taxes

(a)

Current income tax

Current tax assets and liabilities are measured at the amount expected to be recovered or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the year end date. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Management periodically evaluates positions taken in tax returns with

respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

(b)

Deferred tax

Deferred tax is recognised on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in consolidated financial statements. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the year and are expected to apply when the related deferred tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses and tax credits only if it is probable that future taxable amounts will be available to utilize those temporary differences, losses and tax credits. The carrying amount of deferred tax assets is reviewed at each Balance Sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

In the situations where the Group is entitled to a tax holiday under the Income Tax Act, 1961, no deferred tax (asset or liability) is recognised in respect of temporary differences which reverse during the tax holiday period, to the extent the Group's gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of temporary differences which reverse after the tax holiday period is recognised in the year in which the temporary differences originate. However, the Group restricts the recognition of deferred tax assets to the extent that it has become probable that sufficient future taxable profits will be available against which such deferred tax assets can be realised. For recognition of deferred taxes, the temporary differences which originate first are considered to reverse first.

In case of tax payable as Minimum Alternative Tax ('MAT') under the provisions of the Income-tax Act, 1961, the credit available under the Act in respect of MAT paid is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the period for which the MAT credit can be carried forward for set-off against the normal tax liability. MAT credit recognised as a deferred tax asset is reviewed at each balance sheet date and written down to the extent the aforesaid convincing evidence no longer exists.

Current and deferred tax is recognized in Consolidated statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

2.9

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for

consideration.

As a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(i) Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

The right-of-use assets are also subject to impairment.

(ii) Lease Liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Short-term lease and lease of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of twelve months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of offices, godowns, equipment, etc. that are of low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

2.10

Inventories

Raw materials, packaging materials and stores and spare parts are valued at lower of cost and net realizable value. However, material and other items held for use in production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Cost includes purchase price, (excluding those subsequently recoverable by the enterprise from the concerned revenue authorities), freight inwards and other expenditure incurred in bringing such inventories to their present location and condition.

Work in progress and Finished Goods are valued at lower of cost and net realisable value. Cost includes cost of direct materials and direct labour and a proportion of manufacturing overhead based on the normal operating capacity. Cost is determined on monthly weighted average basis.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary to make the sale.

2.11

Provisions and contingent liabilities

Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance sheet date.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Present obligations arising under onerous contracts are recognised and measured as provisions.

Provisions for the expected cost of warranty obligations on sale of goods are recognised at the date of sale of relevant products, at the Management best estimate of the expenditure required to settle the Group's obligation. These estimates are established using historical information on the nature, frequency and average cost of warranty claims and management estimates regarding possible future incidence based on corrective actions on product failures. The timing of outflows will vary as and when warranty claim will arise.

Disclosure of contingent liability is made when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

2.12

Cash and cash equivalents

For the purposes of the Consolidated cash flow statement and Consolidated Balance Sheet, Cash and cash equivalent comprise

cash at banks, cash on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

2.13

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(a)

Financial assets

Classification

The Group classifies its financial assets in the following measurement categories:

a) those to be measured subsequently at fair value (either through other comprehensive income (FVOCI), or through profit or loss (FVTPL)), and

b) those measured at amortised cost.

The classification depends on the Group's business model for managing the financial assets and the contractual terms of cash flows.

For assets measured at fair value, gains and losses is either recorded in the Consolidated statement of profit and loss or other comprehensive income. For investments in debt instruments, this depends on the business model in which the investment is held. For investments in equity instruments, this depends on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income. The Group reclassifies the debt investments when and only when the business model for managing those assets changes.

Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the Consolidated statement of profit and loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Impairment of financial assets

The Group assesses on a forward looking basis, the expected credit losses associated with its assets carrying at amortized cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables only, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

Derecognition of financial assets

A financial asset is derecognised only when

- The Group has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Fair value of Financial Instruments

In determining the fair value of financial instruments, the Group uses a variety of method and assumptions that are based on market conditions and risk existing at each reporting date. The methods used to determine fair value includes discounted cash flow analysis and available quoted market prices. All method of assessing fair value result in general approximation of fair value and such value may never actually be realised.

Investments in units of mutual funds are accounted for at fair value and the changes in fair value are recognised in the Consolidated statement of Profit and Loss.

(b) **Financial liabilities**

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs.

(i) **Borrowings**

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost using the effective interest method. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the Consolidated statement of profit and loss over the period of the borrowings using the effective interest method. Fees paid on loan facilities are recognised as transaction costs of the borrowings to the extent that it is probable that some or all of the facility will be drawn down. Borrowings are derecognised from the consolidated balance sheet when the obligation specified in the contract is discharged, cancelled or expired.

(ii) **Embedded derivatives**

An embedded derivative is a component of a hybrid (combined) instrument that also includes a non-derivative host contract – with the effect that some of the cash flows of the combined instrument vary in a way similar to a standalone derivative. Derivatives embedded in all other host contract are separated if the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host and are measured at fair value through profit or loss. Embedded derivatives closely related to the host contracts are not separated.

Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss.

2.14

Employee Benefits

A

Short term employee benefits

Liabilities for short term employee benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' service up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefits payable in the consolidated balance sheet.

B

Post-employment benefits

(i)

Defined contribution plan

Contributions under Defined Contribution Plans payable in keeping with the related schemes are recognised as expenses for the period in which the employee has rendered the service.

(ii)

Defined benefit plans

Gratuity: The Group provides for gratuity, a defined benefit plan covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary. The Group's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognises the following changes in the net defined benefit obligation as an expense in the Consolidated statement of Profit and Loss:

- (i) Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- (ii) Net interest expense or income

Compensated absence: The Group provides for the sick leave and encashment of earned leave or leave with pay subject to certain rules. The employees are entitled to accumulate earned leave and

sick leave subject to certain limits, for future utilization or encashment. The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured annually by actuaries as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation.

Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in the statement of profit and loss.

2.15

Government Grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attached to them and there is a reasonable certainty that grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate.

Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred revenue in the consolidated balance sheet and transferred to profit or loss on a systematic and rational basis over the useful life of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

2.16

Derivative financial instruments

The Group enters into foreign exchange forward contracts to manage its exposure to foreign currency risk. Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured to their fair value at the end of each reporting period with changes included in other income / other expense in the Consolidated statement of Profit and Loss unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedging relationship and the nature of the hedged item.

2.17

Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker is responsible for allocating resources and assessing performance of the operating segments and has been identified as the Chief Executive Officer (CEO) of the Group. Refer note 52.

2.18

Earnings Per Share

Basic earnings per share is calculated by dividing the net profit or loss before other comprehensive income for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year is adjusted for the effects of all dilutive potential equity shares.

2.19

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the consolidated balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

3

Recent accounting pronouncement

The Ministry of Corporate Affairs (MCA) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2023, as below :

Ind AS 1, Presentation of Financial Statements – This amendment requires the entities to disclose their material accounting policies rather than their significant accounting policies. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Group has evaluated the amendment and the impact of the amendment is insignificant in the consolidated financial statements.

Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors – This amendment has introduced a definition of accounting estimates' and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Group has evaluated the amendment and the impact of the amendment is insignificant in the consolidated financial statements.

Ind AS 12, Income Taxes – This amendment has narrowed the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and offsetting temporary differences. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Group has evaluated the amendment and the impact of the amendment is insignificant in the consolidated financial statements.

Textual information (4)

Disclosure of significant accounting policies [Text Block]

1 General Information

Vikram Solar Limited ("The Company") is a public limited company , incorporated under the provision of Companies Act, applicable in India. The company was incorporated as private limited company and has been converted into a Public Limited Company with effect from August 22, 2017. The Registered office of the Company is situated at The Chambers, 8th Floor, 1865, Rajdanga Main Road, Kolkata – 700107.

Vikram Solar Limited (hereinafter referred as "Parent Company") and its subsidiaries (hereinafter collectively referred as "Group") and is engaged in the business of manufacturing and sale of Solar photovoltaic modules / systems. The manufacturing facilities are situated at Falta Special Economic Zone (SEZ), West Bengal and in Chennai, Tamil Nadu. The Group is also engaged into setting up of the Solar Power Plant / Systems, provides operation and maintenance services and sale of power.

These consolidated financial statement were approved and authorized for issue with the resolution of the Board of Directors on May 16, 2022.

2 Basis of Preparation and summary of Significant accounting policies

2.1 Basis of Preparation and Presentation of Consolidated Financial Statements

This note provides a list of the significant accounting policies adopted in the preparation of these consolidated financial statements . These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Statement of Compliance with Ind AS

The consolidated financial statements comply in all material aspects

with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the 'Act') and read with [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

(b)

Basis of measurement

The consolidated financial statements have been prepared on a historical cost convention on accrual basis, except for certain financial instruments measured at fair value as required by relevant Ind AS (Refer Note 2.13 for accounting policy on financial instruments).

All assets and liabilities have been classified as current or non-current as per the Group's operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of operation and the time between the rendering of supply & services and their realization in cash and cash equivalents, the Group has ascertained its operating cycle as twelve months for the purpose of current and noncurrent classification of assets and liabilities.

The consolidated financial statements have been reported in ? million, except for information pertaining to number of shares and earnings per share information.

Principle of consolidation

a) The financial statements of the Parent Company and its subsidiaries are combined on a line by line basis by adding together like items of assets, liabilities, equity, incomes, expenses and cash flow after fully eliminating intra-group balances and intra-group transactions.

b) Profit and losses resulting from intra-group transactions that are recognised in assets, such as inventory and inputs, Plant and equipments, are eliminated in full.

c) Group Companies

The results and financial position of foreign operations (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities are translated at the closing rate at the date of that balance sheet
- income and expenses are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions), and
- All resulting exchange differences are recognised in other comprehensive income.

(c)

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other financial instruments designated as hedges of such investments, are recognised in other comprehensive income. When a foreign

operation is sold, the associated exchange differences are reclassified to profit or loss, as part of the gain or loss on sale. Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

d) The audited / unaudited financial statements of foreign subsidiaries have been prepared in accordance with the Generally Accepted Accounting Principles of the Country of incorporation or Ind AS.

e) The difference in accounting policy of the Parent Company and its subsidiaries are not material and there are no material transactions from 1 January, 2022 to 31 March, 2022 in respect of subsidiaries having financial year ended 31st December, 2021.

f) The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events on similar circumstances.

(d)

Significant accounting judgements, estimates and assumptions

The preparation of consolidated financial statements in conformity with Ind AS requires the Management to make judgements, estimates and assumptions that affect the reported amounts and disclosures. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared and reviewed at each Balance Sheet date. Uncertainty about these assumptions and estimates could result in outcomes that may require a material adjustment to the reported amounts and disclosures.

(a) Employee benefit plans - Note 2.14 and 43

Post-employment benefits represents obligation that will be settled in the future and require assumptions to project benefit obligations. Post-employment benefit accounting is intended to reflect the recognition of future benefit cost over the employee's approximate service period, based on the terms of plans and the investment and funding decisions made. The accounting requires the Group to make assumptions regarding variables such as discount rate, rate of compensation increase and future mortality rates. Changes in these key assumptions can have a significant impact on the defined benefit obligations and benefit costs incurred.

(b) Impairment of trade receivables- Note 2.13.a and 10

The risk of delay collection of accounts receivable is primarily estimated based on prior experience with, and the past due status of debtors, while large accounts are assessed individually based on factors that include ability to pay, bankruptcy and payment history. The assumptions and estimates applied for determining the allowance of expected credit loss are reviewed periodically.

(c) Estimation of expected useful lives and residual values of property, plants and equipment - Note 2.2, 3 and 4

Property, plant and equipment are depreciated at historical cost using straight-line method based on the estimated useful life, taking into account their residual value. The asset's residual value and useful life are based on the Group's best estimates and reviewed, and adjusted if required, at each Balance Sheet date taking into consideration the estimated usage of the assets, operating condition of the assets and anticipated technological changes etc.

(d) Fair Value Measurements

When the fair values of financial assets and financial liabilities recorded in the Consolidated Balance Sheet cannot be measured based on quoted prices in active markets, their fair values are measured using valuation techniques which involve various judgements and assumptions.

(e) Contingent Liabilities - Note 2.11 and 44

Contingent Liabilities covering a range of matters are pending against the Group. Due to the uncertainty inherent in such matters, it is often difficult to predict the final outcomes. The cases and claims against the Group often raise difficult and complex factual and legal issues that are subject to many uncertainties and complexities, including but not limited to the facts and circumstances of each particular case and claim, the jurisdiction and the differences in applicable law, in the normal course of business, the Group consults with experts on matters related to litigations. The Group accrues a liability when it is determined that an adverse outcome is probable

and the amount of the loss can be reasonably estimated. In the event an adverse outcome is possible or an estimate is not determinable, the matter is disclosed.

(f) Revenue Recognition

The Company uses the proportionate completion method for recognition of revenue, accounting for unbilled revenue / unearned revenue and contract cost thereon for its turnkey contracts. The percentage of completion is measured by reference to the stage of the projects and contract determined based on the proportion of contract costs incurred for work performed to date bear to the estimated total contract costs. Use of the proportionate completion method requires the Company to estimate the efforts or costs incurred to date as a proportion of the total efforts or cost to be incurred. Significant assumptions are required in determining the stage of completion, the extent of the contract cost incurred, the estimated total contract revenue and contract cost and the recoverability of the contracts. These estimates are based on events existing at the end of each reporting date.

2.2

Property, plant and equipment

Property, Plant and Equipment, Capital Work in Progress is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Cost comprises of purchase price (net of tax credits), borrowing costs, if capitalization criteria are met, commissioning expenses, etc. up to the date the asset is ready for its intended use. Freehold land is not depreciated.

Expenditure directly attributable to expansion projects is capitalized. Administrative, general overheads and other indirect expenditure (including borrowing costs) incurred during the project period which are not related to the project nor are incidental thereto, are expensed off when that are incurred.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to Consolidated statement of Profit and Loss during the year in which they are incurred.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'.

Depreciation methods, estimated useful lives

Depreciation is calculated on a straight-line basis using the rates arrived at based on the useful lives estimated by the management, which are in line with the rates prescribed in the Schedule II of the Companies Act, 2013.

Property, plant and equipment	Useful Life
Building	30 years
Furniture and Fixtures	10 years
Vehicles	8- 10 years
Office Equipment	3-5 years
Plant & Machinery	15 years
Electrical Installation	10 years
Computers & Accessories	3-6 years

The Group, based on technical assessment made by technical expert and management estimate, depreciates certain items of tools, plant & machinery and other handling equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the assets and is recognised in Consolidated statement of profit and loss.

Depreciation on addition to property plant and equipment is provided on pro-rata basis from the date of acquisition. Depreciation on sale/deduction from property plant and equipment is provided up to the date preceding the date of sale, deduction as the case may be.

Depreciation methods, useful lives and residual values are reviewed periodically at each financial year end and adjusted prospectively, as appropriate.

The Group has adopted Schedule II to the Companies Act, 2013 which requires identification and determination of separate useful life

for each major component of the property, plant and equipment, if they have useful life that is materially different from that of the remaining asset.

The carrying amounts of assets are reviewed at each Balance Sheet date to determine if there is any indication of impairment based on external or internal factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount which represents the greater of the net selling price of assets and their 'value in use'. The estimated future cash flows are discounted to their present value using pre-tax discount rates and risks specific to the asset.

2.3

Intangible Assets

Acquired intangible assets are initially measured at cost and subsequently at cost less accumulated amortization and accumulated impairment loss, if any.

Amortization of Intangible assets

Intangibles are amortized on a straight line basis over the useful lives as given below, which is based on the management estimates.

Intangible assets	Useful life
Computer Software	5 years
Trade Mark & Copyrights	3 years
Product Certifications	3 - 5 years

Intangible assets are amortized over their respective useful economic lives and assessed for impairment whenever there is an impairment indicator. The amortization expense and the gain or loss on disposal, is recognized in the Consolidated statement of profit and loss.

2.4

Rounding off amounts

All amounts disclosed in consolidated financial statements and notes have been rounded off to the nearest million as per requirement of Schedule III of the Act, unless otherwise stated.

2.5

Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalized as part of the cost of asset. All other borrowing costs are recognised as expenditure in the period in which they are incurred.

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

2.6

Foreign Currency Transactions

The Group's consolidated financial statements are presented in INR, which is also the parent Company's functional currency. For each entity the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency. The Group uses the direct method of consolidation and on disposal of a foreign operation the gain or loss that is reclassified to profit or loss reflects the amount that arises from using this method.

Transactions in foreign currencies are initially recorded in reporting currency by the Group at spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of nonmonetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit and loss, respectively).

On consolidation of subsidiaries, the assets and liabilities of foreign operations are translated into INR at the rate of exchange prevailing at the reporting date and their statements of profit or loss are translated at exchange rates prevailing at the dates of the transactions. For practical reasons, the group uses an average rate to translate income and expense items, if the average rate approximates the exchange rates at the dates of the transactions. The exchange differences arising on translation for consolidation are

recognised in OCI. On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is recognised in profit or loss.

2.7

Revenue Recognition

Sale of goods and rendering of services

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer.

Revenue from sales of goods is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery.

Revenues from turnkey contracts, which are generally time bound fixed price contracts are recognised over the life of the contract using the proportionate completion method with contract costs of determining the degree of completion. Foreseeable losses on such contracts are recognised when probable.

Revenue on installation and commissioning contracts are recognised as per the terms of contract. Revenue from maintenance contracts are recognised pro rata over the period of the contract.

Other Operating revenues

Exports entitlements are recognised when the right to receive such incentives as per the applicable terms is established, in respect of the exports made and when there is no significant uncertainty regarding the ultimate realisation/ utilization of such incentives.

Other Income

Interest Income is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument.

Dividend income is recognised when the Group's right to receive dividend is established by the reporting date.

Insurance claims are accounted for on the basis of claims admitted/ expected to be admitted and to the extent there is no uncertainty in receiving the claims.

2.8

Taxes

(a)

Current income tax

Current tax assets and liabilities are measured at the amount expected to be recovered or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the year end date. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

(b)

Deferred tax

Deferred tax is recognised on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in consolidated financial statements. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the year and are expected to apply when the related deferred tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses and tax credits only if it is probable that future taxable amounts will be available to utilize those temporary differences, losses and tax credits. The carrying amount of deferred tax assets is reviewed at each Balance Sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

In the situations where the Group is entitled to a tax holiday under the Income Tax Act, 1961, no deferred tax (asset or liability) is recognised in respect of temporary differences which reverse during the tax holiday period, to the extent the Group's gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of temporary differences which reverse after the tax holiday period is recognised in the year in which the temporary differences originate. However, the Group restricts the recognition of deferred tax assets to the extent that it has become probable that sufficient future taxable profits will be available against which such deferred tax assets can be realised. For recognition of deferred taxes, the temporary differences which originate first are considered to reverse first.

In case of tax payable as Minimum Alternative Tax ('MAT') under the provisions of the Income-tax Act, 1961, the credit available under the Act in respect of MAT paid is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the period for which the MAT credit can be carried forward for set-off against the normal tax liability. MAT credit recognised as a deferred tax asset is reviewed at each balance sheet date and written down to the extent the aforesaid convincing evidence no longer exists.

Current and deferred tax is recognized in Consolidated statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

2.9

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(i) Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received.

Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

The right-of-use assets are also subject to impairment.

(ii) Lease Liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Short-term lease and lease of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of twelve months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of offices, godowns, equipment, etc. that are of low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

2.10

Inventories

Raw materials, packaging materials and stores and spare parts are valued at lower of cost and net realizable value. However, material

and other items held for use in production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Cost includes purchase price, (excluding those subsequently recoverable by the enterprise from the concerned revenue authorities), freight inwards and other expenditure incurred in bringing such inventories to their present location and condition.

Work in progress and Finished Goods are valued at lower of cost and net realisable value. Cost includes cost of direct materials and direct labour and a proportion of manufacturing overhead based on the normal operating capacity. Cost is determined on monthly weighted average basis.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary to make the sale.

2.11

Provisions and contingent liabilities

Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance sheet date.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Present obligations arising under onerous contracts are recognised and measured as provisions.

Provisions for the expected cost of warranty obligations on sale of goods are recognised at the date of sale of relevant products, at the Management best estimate of the expenditure required to settle the Group's obligation. These estimates are established using historical information on the nature, frequency and average cost of warranty claims and management estimates regarding possible future incidence based on corrective actions on product failures. The timing of outflows will vary as and when warranty claim will arise.

Disclosure of contingent liability is made when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

2.12

Cash and cash equivalents

For the purposes of the Consolidated cash flow statement and Consolidated Balance Sheet, Cash and cash equivalent comprise cash at banks, cash on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

2.13

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(a)

Financial assets

Classification

The Group classifies its financial assets in the following measurement categories:

a) those to be measured subsequently at fair value (either through other comprehensive income (FVOCI), or through profit or loss (FVTPL)), and

b) those measured at amortised cost.

The classification depends on the Group's business model for managing the financial assets and the contractual terms of cash flows.

For assets measured at fair value, gains and losses is either recorded in the Consolidated statement of profit and loss or other comprehensive income. For investments in debt instruments, this depends on the business model in which the investment is held. For investments in equity instruments, this depends on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income. The Group reclassifies the debt investments when and only when the business model for managing those assets changes.

Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial

assets carried at fair value through profit or loss are expensed in the Consolidated statement of profit and loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Impairment of financial assets

The Group assesses on a forward looking basis, the expected credit losses associated with its assets carrying at amortized cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables only, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

Derecognition of financial assets

A financial asset is derecognised only when

- The Group has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Fair value of Financial Instruments

In determining the fair value of financial instruments, the Group uses a variety of method and assumptions that are based on market conditions and risk existing at each reporting date. The methods used to determine fair value includes discounted cash flow analysis and available quoted market prices. All method of assessing fair value result in general approximation of fair value and such value may never actually be realised.

Investments in units of mutual funds are accounted for at fair value and the changes in fair value are recognised in the Consolidated statement of Profit and Loss.

(b)

Financial liabilities

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs.

(i)

Borrowings

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost using the effective interest method. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the Consolidated statement of profit and loss over the period of the borrowings using the effective interest method. Fees paid on loan facilities are recognised as transaction costs of the borrowings to the extent that it is probable that some or all of the facility will be drawn down. Borrowings are derecognised from the consolidated balance sheet when the obligation specified in the contract is discharged, cancelled or expired.

(ii)

Embedded derivatives

An embedded derivative is a component of a hybrid (combined) instrument that also includes a non-derivative host contract – with the

effect that some of the cash flows of the combined instrument vary in a way similar to a standalone derivative. Derivatives embedded in all other host contract are separated if the economic characteristics and risks of the embedded derivative are not closely related to the

economic characteristics and risks of the host and are measured at fair value through profit or loss. Embedded derivatives closely related to the host contracts are not separated.

Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss.

2.14

Employee Benefits

A

Short term employee benefits

Liabilities for short term employee benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' service up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefits payable in the consolidated balance sheet.

B

Post-employment benefits

(i)

Defined contribution plan

Contributions under Defined Contribution Plans payable in keeping with the related schemes are recognised as expenses for the period in which the employee has rendered the service.

(ii)

Defined benefit plans

Gratuity: The Group provides for gratuity, a defined benefit plan covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary. The Group's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognises the following changes in the net defined benefit obligation as an expense in the Consolidated statement of Profit and Loss:

- (i) Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- (ii) Net interest expense or income

Compensated absence: The Group provides for the sick leave and encashment of earned leave or leave with pay subject to certain rules. The employees are entitled to accumulate earned leave and sick leave subject to certain limits, for future utilization or encashment. The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured annually by actuaries as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in the statement of profit and loss.

2.15

Government Grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attached to them and there is a reasonable certainty that grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate.

Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred revenue in the consolidated balance sheet and transferred to profit or loss on a systematic and rational basis over the useful life of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

2.16

Derivative financial instruments

The Group enters into foreign exchange forward contracts to manage its exposure to foreign currency risk. Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured to their fair value at the end of each reporting period with changes included in other income / other expense in the Consolidated statement of Profit and Loss unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedging relationship and the nature of the hedged item.

2.17

Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker is responsible for allocating resources and assessing performance of the operating segments and has been identified as the Chief Executive Officer (CEO) of the Group. Refer note 52.

2.18

Earnings Per Share

Basic earnings per share is calculated by dividing the net profit or loss before other comprehensive income for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year is adjusted for the effects of all dilutive potential equity shares.

2.19

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the consolidated balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

3

Recent accounting pronouncement

On 23rd March, 2022, the Ministry of Corporate Affairs ("MCA") through notifications, amended to the existing Ind AS. The same shall come into force from annual reporting period beginning on or after 1st April, 2022. Key Amendments relating to the same whose financial statements are required to comply with Companies (Indian Accounting Standards) Rules 2015 are:

- Ind AS 16 Property, Plant and Equipment – For items produced during testing / trail phase, clarification added that revenue generated out of the same shall not be recognised in SOPL and considered as part of cost of PPE.
- Ind AS 37 Provisions, Contingent Liabilities & Contingent Assets – Guidance on what constitutes cost of fulfilling contracts (to determine whether the contract is onerous or not) is included.
- Ind AS 103 – Business Combination – Reference to revised Conceptual Framework. For contingent liabilities / levies, clarification is added on how to apply the principles for recognition of contingent liabilities from Ind AS 37. Recognition of contingent assets is not allowed.
- Ind AS 109 Financial Instruments – The amendment clarifies which fees an entity includes when it applies the '10 per cent' test in assessing whether to derecognise a financial liability.

The amendments are extensive and the Group will evaluate the same to give effect to them as required by law.

Textual information (7)

Description of accounting policy for leases [Text Block]

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(i) Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

The right-of-use assets are also subject to impairment.

(ii) Lease Liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Short-term lease and lease of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of twelve months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of offices, godowns, equipment, etc. that are of low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Leases

(a) The Group has certain lease contracts for land and buildings, vehicles and other equipments used in its operations. The Group's obligation under its lease are secured by lessor's title to the leased assets. The Group applies short term lease and low value assets lease recognition exemption for the said leases. The effective interest rate for lease liabilities is 10%p.a. as on March 31, 2023 (March 31, 2022 - 10%p.a.). Impact of Ind AS 116 is as follows:

	As at March 31, 2023	As at March 31, 2022
(b) Carrying value of right of use assets at the end of the reporting period (Refer Note 4)	607.84	441.32

(c) Analysis of Lease liabilities:

	As at March 31, 2023	As at March 31, 2022
Movement of lease liabilities		
Lease liabilities at the beginning of the year	458.12	507.88
Addition during the year (net)	166.88	-
Accretion of interest during the year	23.55	48.41
Cash outflow towards payment of lease liabilities	(104.26)	(98.17)
Lease liabilities at the end of the year	544.29	458.12
Lease liabilities included in the Consolidated Balance Sheet		
Current	94.27	97.45
Non-Current	450.02	360.67
Total	544.29	458.12

(d) The table below summarises the maturity profile of the Group's lease liabilities based on contractual undiscounted payments:

	As at March 31, 2023	As at March 31, 2022
Less than 1 year	94.28	97.79
Between 1 to 5 year	396.77	294.00
More than 5 year	342.46	284.40
	833.51	676.19

(e) Impact on Consolidated statement of Profits and Losses:

	For the year ended March	For the year ended
--	-----------------------------	-----------------------

	31, 2023	March 31, 2022
Interest on lease liabilities	23.55	48.41
Expenses relating to short-term and low-value leases	23.20	10.57
Total	46.75	58.98

e) There is no significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when due.

Disclosure of significant accounting policies [Text Block]

1 General Information

Vikram Solar Limited ("The Company") is a public limited company , incorporated under the provision of Companies Act, applicable in India. The company was incorporated as private limited company and has been converted into a Public Limited Company with effect from August 22, 2017. The Registered office of the Company is situated at The Chambers, 8th Floor, 1865, Rajdanga Main Road, Kolkata – 700107.

Vikram Solar Limited (hereinafter referred as "Parent Company") and its subsidiaries (hereinafter collectively referred as "Group") and is engaged in the business of manufacturing and sale of Solar photovoltaic modules / systems. The manufacturing facilities are situated at Falta Special Economic Zone (SEZ), West Bengal and at Oragadam, Tamil Nadu. The Group is also engaged into setting up of the Solar Power Plant / Systems and provides operation & maintenance services.

These consolidated financial statement were approved and authorized for issue with the resolution of the Board of Directors on June 27, 2023.

2 Basis of Preparation and summary of Significant accounting policies

2.1 Basis of Preparation and Presentation of Consolidated Financial Statements

This note provides a list of the significant accounting policies adopted in the preparation of these consolidated financial statements . These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Statement of Compliance with Ind AS

The consolidated financial statements comply in all material aspects

with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the 'Act') and read with [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

(b)

Basis of measurement

The consolidated financial statements have been prepared on a historical cost convention on accrual basis, except for certain financial instruments measured at fair value as required by relevant Ind AS (Refer Note 2.13 for accounting policy on financial instruments).

All assets and liabilities have been classified as current or non-current as per the Group's operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of operation and the time between the rendering of supply & services and their realization in cash and cash equivalents, the Group has ascertained its operating cycle as twelve months for the purpose of current and noncurrent classification of assets and liabilities.

The consolidated financial statements have been reported in ₹ million, except for information pertaining to number of shares and earnings per share information.

Principle of consolidation

a) The financial statements of the Parent Company and its subsidiaries are combined on a line by line basis by adding together like items of assets, liabilities, equity, incomes, expenses and cash flow after fully eliminating intra-group balances and intra-group transactions.

b) Profit and losses resulting from intra-group transactions that are recognised in assets, such as inventory and inputs, Plant and equipments, are eliminated in full.

c) Group Companies

The results and financial position of foreign operations (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities are translated at the closing rate at the date of that balance sheet
- income and expenses are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions), and
- All resulting exchange differences are recognised in other comprehensive income.

(c)

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other financial instruments designated as hedges of such investments, are recognised in other comprehensive income. When a foreign operation is sold, the associated exchange differences are reclassified to profit or loss, as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a

foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

d) The audited / unaudited financial statements of foreign subsidiaries have been prepared in accordance with the Generally Accepted Accounting Principles of the Country of incorporation or Ind AS.

e) The difference in accounting policy of the Parent Company and its subsidiaries are not material and there are no material transactions from 1 January, 2023 to 31 March, 2023 in respect of subsidiaries having financial year ended 31st December, 2022.

f) The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events on similar circumstances.

(d)

Significant accounting judgements, estimates and assumptions

The preparation of consolidated financial statements in conformity with Ind AS requires the Management to make judgements, estimates and assumptions that affect the reported amounts and disclosures. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared and reviewed at each Balance Sheet date. Uncertainty about these assumptions and estimates could result in outcomes that may require a material adjustment to the reported amounts and disclosures.

(a) Employee benefit plans - Note 2.14 and 43

Post-employment benefits represents obligation that will be settled in the future and require assumptions to project benefit obligations. Post-employment benefit accounting is intended to reflect the recognition of future benefit cost over the employee's approximate service period, based on the terms of plans and the investment and funding decisions made. The accounting requires the Group to make assumptions regarding variables such as discount rate, rate of compensation increase and future mortality rates. Changes in these key assumptions can have a significant impact on the defined benefit obligations and benefit costs incurred.

(b) Impairment of trade receivables- Note 2.13.a and 10

The risk of delay collection of accounts receivable is primarily estimated based on prior experience with, and the past due status of debtors, while large accounts are assessed individually based on factors that include ability to pay, bankruptcy and payment history. The assumptions and estimates applied for determining the allowance of expected credit loss are reviewed periodically.

(c) Estimation of expected useful lives and residual values of property, plants and equipment - Note 2.2, 3 and 4

Property, plant and equipment are depreciated at historical cost using straight-line method based on the estimated useful life, taking into account their residual value. The asset's residual value and useful life are based on the Group's best estimates and reviewed, and adjusted if required, at each Balance Sheet date taking into consideration the estimated usage of the assets, operating condition of the assets and anticipated technological changes etc.

(d) Fair Value Measurements

When the fair values of financial assets and financial liabilities recorded in the Consolidated Balance Sheet cannot be measured based on quoted prices in active markets, their fair values are measured using valuation techniques which involve various judgements and assumptions.

(e) Contingent Liabilities - Note 2.11 and 44

Contingent Liabilities covering a range of matters are pending against the Group. Due to the uncertainty inherent in such matters, it is often difficult to predict the final outcomes. The cases and claims against the Group often raise difficult and complex factual and legal issues that are subject to many uncertainties and complexities, including but not limited to the facts and circumstances of each particular case and claim, the jurisdiction and the differences in applicable law, in the normal course of business, the Group consults with experts on matters related to litigations. The Group accrues a liability when it is determined that an adverse outcome is probable and the amount of

the loss can be reasonably estimated. In the event an adverse outcome is possible or an estimate is not determinable, the matter is disclosed.

(f) Revenue Recognition

The Company uses the proportionate completion method for recognition of revenue, accounting for unbilled revenue / unearned revenue and contract cost thereon for its turnkey contracts. The percentage of completion is measured by reference to the stage of the projects and contract determined based on the proportion of contract costs incurred for work performed to date bear to the estimated total contract costs. Use of the proportionate completion method requires the Company to estimate the efforts or costs incurred to date as a proportion of the total efforts or cost to be incurred. Significant assumptions are required in determining the stage of completion, the extent of the contract cost incurred, the estimated total contract revenue and contract cost and the recoverability of the contracts. These estimates are based on events existing at the end of each reporting date.

2.2

Property, plant and equipment

Property, Plant and Equipment, Capital Work in Progress is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Cost comprises of purchase price (net of tax credits), borrowing costs, if capitalization criteria are met, commissioning expenses, etc. up to the date the asset is ready for its intended use. Freehold land is not depreciated.

Expenditure directly attributable to expansion projects is capitalized. Administrative, general overheads and other indirect expenditure (including borrowing costs) incurred during the project period which are not related to the project nor are incidental thereto, are expensed off when that are incurred.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to Consolidated statement of Profit and Loss during the year in which they are incurred.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'.

Depreciation methods, estimated useful lives

Depreciation is calculated on a straight-line basis using the rates arrived at based on the useful lives estimated by the management, which are in line with the rates prescribed in the Schedule II of the Companies Act, 2013.

Property, plant and equipment	Useful Life
Building	30 years
Furniture and Fixtures	10 years
Vehicles	8- 10 years
Office Equipment	3-5 years
Plant & Machinery	15 years
Electrical Installation	10 years
Computers & Accessories	3-6 years

The Group, based on technical assessment made by technical expert and management estimate, depreciates certain items of tools, plant & machinery and other handling equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the assets and is recognised in Consolidated statement of profit and loss.

Depreciation on addition to property plant and equipment is provided on pro-rata basis from the date of put to use. Depreciation on sale/deduction from property plant and equipment is provided up to the date preceding the date of sale, deduction as the case may be.

Depreciation methods, useful lives and residual values are reviewed periodically at each financial year end and adjusted prospectively, as appropriate.

The Group has adopted Schedule II to the Companies Act, 2013 which requires identification and determination of separate useful life for each major component of the property, plant and equipment, if they have useful life that is materially different from that of the remaining asset.

The carrying amounts of assets are reviewed at each Balance Sheet date to determine if there is any indication of impairment based on external or internal factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount which represents the greater of the net selling price of assets and their 'value in use'. The estimated future cash flows are discounted to their present value using pre-tax discount rates and risks specific to the asset.

2.3

Intangible Assets

Acquired intangible assets are initially measured at cost and subsequently at cost less accumulated amortization and accumulated impairment loss, if any.

Amortization of Intangible assets

Intangibles are amortized on a straight line basis over the useful lives as given below, which is based on the management estimates.

Intangible assets	Useful life
Computer Software	5 years
Trade Mark & Copyrights	3 years
Product Certifications	3 - 5 years

Intangible assets are amortized over their respective useful economic lives and assessed for impairment whenever there is an impairment indicator. The amortization expense and the gain or loss on disposal, is recognized in the Consolidated statement of profit and loss.

2.4

Rounding off amounts

All amounts disclosed in consolidated financial statements and notes have been rounded off to the nearest million as per requirement of Schedule III of the Act, unless otherwise stated.

2.5

Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalized as part of the cost of asset. All other borrowing costs are recognised as expenditure in the period in which they are incurred.

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

2.6

Foreign Currency Transactions

The Group's consolidated financial statements are presented in INR, which is also the parent Company's functional currency. For each entity the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency. The Group uses the direct method of consolidation and on disposal of a foreign operation the gain or loss that is reclassified to profit or loss reflects the amount that arises from using this method.

Transactions in foreign currencies are initially recorded in reporting currency by the Group at spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of nonmonetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit and loss, respectively).

On consolidation of subsidiaries, the assets and liabilities of foreign operations are translated into INR at the rate of exchange prevailing at the reporting date and their statements of profit or loss are translated at exchange rates prevailing at the dates of the transactions. For practical reasons, the group uses an average rate to translate income and expense items, if the average rate approximates the exchange rates at the dates of the transactions. The exchange differences arising on translation for consolidation are recognised in OCI. On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is recognised in profit or loss.

2.7

Revenue Recognition

Sale of goods and rendering of services

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has concluded that it is the principal in its revenue arrangements with the customer because the Group typically controls the goods or services before transferring them to the customer.

Revenue from sales of goods is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery.

Revenues from turnkey contracts, which are generally time bound fixed price contracts are recognised over the life of the contract using the proportionate completion method with contract costs of determining the degree of completion. Foreseeable losses on such contracts are recognised when probable.

Revenue on installation and commissioning contracts are recognised as per the terms of contract. Revenue from maintenance contracts are recognised pro rata over the period of the contract.

Other Operating revenues

Exports entitlements are recognised when the right to receive such incentives as per the applicable terms is established, in respect of the exports made and when there is no significant uncertainty regarding the ultimate realisation/ utilization of such incentives.

Other Income

Interest Income is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument.

Dividend income is recognised when the Group's right to receive dividend is established by the reporting date.

Insurance claims are accounted for on the basis of claims admitted/ expected to be admitted and to the extent there is no uncertainty in receiving the claims.

2.8

Taxes

(a)

Current income tax

Current tax assets and liabilities are measured at the amount expected to be recovered or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the year end date. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Management periodically evaluates positions taken in tax returns with

respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

(b)

Deferred tax

Deferred tax is recognised on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in consolidated financial statements. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the year and are expected to apply when the related deferred tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses and tax credits only if it is probable that future taxable amounts will be available to utilize those temporary differences, losses and tax credits. The carrying amount of deferred tax assets is reviewed at each Balance Sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

In the situations where the Group is entitled to a tax holiday under the Income Tax Act, 1961, no deferred tax (asset or liability) is recognised in respect of temporary differences which reverse during the tax holiday period, to the extent the Group's gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of temporary differences which reverse after the tax holiday period is recognised in the year in which the temporary differences originate. However, the Group restricts the recognition of deferred tax assets to the extent that it has become probable that sufficient future taxable profits will be available against which such deferred tax assets can be realised. For recognition of deferred taxes, the temporary differences which originate first are considered to reverse first.

In case of tax payable as Minimum Alternative Tax ('MAT') under the provisions of the Income-tax Act, 1961, the credit available under the Act in respect of MAT paid is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the period for which the MAT credit can be carried forward for set-off against the normal tax liability. MAT credit recognised as a deferred tax asset is reviewed at each balance sheet date and written down to the extent the aforesaid convincing evidence no longer exists.

Current and deferred tax is recognized in Consolidated statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

2.9

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for

consideration.

As a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(i) Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

The right-of-use assets are also subject to impairment.

(ii) Lease Liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Short-term lease and lease of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of twelve months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of offices, godowns, equipment, etc. that are of low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

2.10

Inventories

Raw materials, packaging materials and stores and spare parts are valued at lower of cost and net realizable value. However, material and other items held for use in production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Cost includes purchase price, (excluding those subsequently recoverable by the enterprise from the concerned revenue authorities), freight inwards and other expenditure incurred in bringing such inventories to their present location and condition.

Work in progress and Finished Goods are valued at lower of cost and net realisable value. Cost includes cost of direct materials and direct labour and a proportion of manufacturing overhead based on the normal operating capacity. Cost is determined on monthly weighted average basis.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary to make the sale.

2.11

Provisions and contingent liabilities

Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance sheet date.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Present obligations arising under onerous contracts are recognised and measured as provisions.

Provisions for the expected cost of warranty obligations on sale of goods are recognised at the date of sale of relevant products, at the Management best estimate of the expenditure required to settle the Group's obligation. These estimates are established using historical information on the nature, frequency and average cost of warranty claims and management estimates regarding possible future incidence based on corrective actions on product failures. The timing of outflows will vary as and when warranty claim will arise.

Disclosure of contingent liability is made when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

2.12

Cash and cash equivalents

For the purposes of the Consolidated cash flow statement and Consolidated Balance Sheet, Cash and cash equivalent comprise

cash at banks, cash on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

2.13

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(a)

Financial assets

Classification

The Group classifies its financial assets in the following measurement categories:

a) those to be measured subsequently at fair value (either through other comprehensive income (FVOCI), or through profit or loss (FVTPL)), and

b) those measured at amortised cost.

The classification depends on the Group's business model for managing the financial assets and the contractual terms of cash flows.

For assets measured at fair value, gains and losses is either recorded in the Consolidated statement of profit and loss or other comprehensive income. For investments in debt instruments, this depends on the business model in which the investment is held. For investments in equity instruments, this depends on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income. The Group reclassifies the debt investments when and only when the business model for managing those assets changes.

Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in the Consolidated statement of profit and loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Impairment of financial assets

The Group assesses on a forward looking basis, the expected credit losses associated with its assets carrying at amortized cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables only, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

Derecognition of financial assets

A financial asset is derecognised only when

- The Group has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Fair value of Financial Instruments

In determining the fair value of financial instruments, the Group uses a variety of method and assumptions that are based on market conditions and risk existing at each reporting date. The methods used to determine fair value includes discounted cash flow analysis and available quoted market prices. All method of assessing fair value result in general approximation of fair value and such value may never actually be realised.

Investments in units of mutual funds are accounted for at fair value and the changes in fair value are recognised in the Consolidated statement of Profit and Loss.

(b) **Financial liabilities**

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs.

(i) **Borrowings**

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost using the effective interest method. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the Consolidated statement of profit and loss over the period of the borrowings using the effective interest method. Fees paid on loan facilities are recognised as transaction costs of the borrowings to the extent that it is probable that some or all of the facility will be drawn down. Borrowings are derecognised from the consolidated balance sheet when the obligation specified in the contract is discharged, cancelled or expired.

(ii) **Embedded derivatives**

An embedded derivative is a component of a hybrid (combined) instrument that also includes a non-derivative host contract – with the effect that some of the cash flows of the combined instrument vary in a way similar to a standalone derivative. Derivatives embedded in all other host contract are separated if the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host and are measured at fair value through profit or loss. Embedded derivatives closely related to the host contracts are not separated.

Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss.

2.14

Employee Benefits

A

Short term employee benefits

Liabilities for short term employee benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' service up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefits payable in the consolidated balance sheet.

B

Post-employment benefits

(i)

Defined contribution plan

Contributions under Defined Contribution Plans payable in keeping with the related schemes are recognised as expenses for the period in which the employee has rendered the service.

(ii)

Defined benefit plans

Gratuity: The Group provides for gratuity, a defined benefit plan covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary. The Group's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognises the following changes in the net defined benefit obligation as an expense in the Consolidated statement of Profit and Loss:

- (i) Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- (ii) Net interest expense or income

Compensated absence: The Group provides for the sick leave and encashment of earned leave or leave with pay subject to certain rules. The employees are entitled to accumulate earned leave and

sick leave subject to certain limits, for future utilization or encashment. The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured annually by actuaries as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation.

Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in the statement of profit and loss.

2.15

Government Grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attached to them and there is a reasonable certainty that grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate.

Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred revenue in the consolidated balance sheet and transferred to profit or loss on a systematic and rational basis over the useful life of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

2.16

Derivative financial instruments

The Group enters into foreign exchange forward contracts to manage its exposure to foreign currency risk. Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured to their fair value at the end of each reporting period with changes included in other income / other expense in the Consolidated statement of Profit and Loss unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedging relationship and the nature of the hedged item.

2.17

Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker is responsible for allocating resources and assessing performance of the operating segments and has been identified as the Chief Executive Officer (CEO) of the Group. Refer note 52.

2.18

Earnings Per Share

Basic earnings per share is calculated by dividing the net profit or loss before other comprehensive income for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year is adjusted for the effects of all dilutive potential equity shares.

2.19

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the consolidated balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

3

Recent accounting pronouncement

The Ministry of Corporate Affairs (MCA) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2023, as below :

Ind AS 1, Presentation of Financial Statements – This amendment requires the entities to disclose their material accounting policies rather than their significant accounting policies. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Group has evaluated the amendment and the impact of the amendment is insignificant in the consolidated financial statements.

Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors – This amendment has introduced a definition of accounting estimates' and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Group has evaluated the amendment and the impact of the amendment is insignificant in the consolidated financial statements.

Ind AS 12, Income Taxes – This amendment has narrowed the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and offsetting temporary differences. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Group has evaluated the amendment and the impact of the amendment is insignificant in the consolidated financial statements.

Textual information (12)

Disclosure of significant accounting policies [Text Block]

1 General Information

Vikram Solar Limited ("The Company") is a public limited company , incorporated under the provision of Companies Act, applicable in India. The company was incorporated as private limited company and has been converted into a Public Limited Company with effect from August 22, 2017. The Registered office of the Company is situated at The Chambers, 8th Floor, 1865, Rajdanga Main Road, Kolkata – 700107.

Vikram Solar Limited (hereinafter referred as "Parent Company") and its subsidiaries (hereinafter collectively referred as "Group") and is engaged in the business of manufacturing and sale of Solar photovoltaic modules / systems. The manufacturing facilities are situated at Falta Special Economic Zone (SEZ), West Bengal and in Chennai, Tamil Nadu. The Group is also engaged into setting up of the Solar Power Plant / Systems, provides operation and maintenance services and sale of power.

These consolidated financial statement were approved and authorized for issue with the resolution of the Board of Directors on May 16, 2022.

2 Basis of Preparation and summary of Significant accounting policies

2.1 Basis of Preparation and Presentation of Consolidated Financial Statements

This note provides a list of the significant accounting policies adopted in the preparation of these consolidated financial statements . These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Statement of Compliance with Ind AS

The consolidated financial statements comply in all material aspects

with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the 'Act') and read with [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

(b)

Basis of measurement

The consolidated financial statements have been prepared on a historical cost convention on accrual basis, except for certain financial instruments measured at fair value as required by relevant Ind AS (Refer Note 2.13 for accounting policy on financial instruments).

All assets and liabilities have been classified as current or non-current as per the Group's operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of operation and the time between the rendering of supply & services and their realization in cash and cash equivalents, the Group has ascertained its operating cycle as twelve months for the purpose of current and noncurrent classification of assets and liabilities.

The consolidated financial statements have been reported in ? million, except for information pertaining to number of shares and earnings per share information.

Principle of consolidation

a) The financial statements of the Parent Company and its subsidiaries are combined on a line by line basis by adding together like items of assets, liabilities, equity, incomes, expenses and cash flow after fully eliminating intra-group balances and intra-group transactions.

b) Profit and losses resulting from intra-group transactions that are recognised in assets, such as inventory and inputs, Plant and equipments, are eliminated in full.

c) Group Companies

The results and financial position of foreign operations (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities are translated at the closing rate at the date of that balance sheet
- income and expenses are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions), and
- All resulting exchange differences are recognised in other comprehensive income.

(c)

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other financial instruments designated as hedges of such investments, are recognised in other comprehensive income. When a foreign

operation is sold, the associated exchange differences are reclassified to profit or loss, as part of the gain or loss on sale. Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

d) The audited / unaudited financial statements of foreign subsidiaries have been prepared in accordance with the Generally Accepted Accounting Principles of the Country of incorporation or Ind AS.

e) The difference in accounting policy of the Parent Company and its subsidiaries are not material and there are no material transactions from 1 January, 2022 to 31 March, 2022 in respect of subsidiaries having financial year ended 31st December, 2021.

f) The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events on similar circumstances.

(d)

Significant accounting judgements, estimates and assumptions

The preparation of consolidated financial statements in conformity with Ind AS requires the Management to make judgements, estimates and assumptions that affect the reported amounts and disclosures. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared and reviewed at each Balance Sheet date. Uncertainty about these assumptions and estimates could result in outcomes that may require a material adjustment to the reported amounts and disclosures.

(a) Employee benefit plans - Note 2.14 and 43

Post-employment benefits represents obligation that will be settled in the future and require assumptions to project benefit obligations. Post-employment benefit accounting is intended to reflect the recognition of future benefit cost over the employee's approximate service period, based on the terms of plans and the investment and funding decisions made. The accounting requires the Group to make assumptions regarding variables such as discount rate, rate of compensation increase and future mortality rates. Changes in these key assumptions can have a significant impact on the defined benefit obligations and benefit costs incurred.

(b) Impairment of trade receivables- Note 2.13.a and 10

The risk of delay collection of accounts receivable is primarily estimated based on prior experience with, and the past due status of debtors, while large accounts are assessed individually based on factors that include ability to pay, bankruptcy and payment history. The assumptions and estimates applied for determining the allowance of expected credit loss are reviewed periodically.

(c) Estimation of expected useful lives and residual values of property, plants and equipment - Note 2.2, 3 and 4

Property, plant and equipment are depreciated at historical cost using straight-line method based on the estimated useful life, taking into account their residual value. The asset's residual value and useful life are based on the Group's best estimates and reviewed, and adjusted if required, at each Balance Sheet date taking into consideration the estimated usage of the assets, operating condition of the assets and anticipated technological changes etc.

(d) Fair Value Measurements

When the fair values of financial assets and financial liabilities recorded in the Consolidated Balance Sheet cannot be measured based on quoted prices in active markets, their fair values are measured using valuation techniques which involve various judgements and assumptions.

(e) Contingent Liabilities - Note 2.11 and 44

Contingent Liabilities covering a range of matters are pending against the Group. Due to the uncertainty inherent in such matters, it is often difficult to predict the final outcomes. The cases and claims against the Group often raise difficult and complex factual and legal issues that are subject to many uncertainties and complexities, including but not limited to the facts and circumstances of each particular case and claim, the jurisdiction and the differences in applicable law, in the normal course of business, the Group consults with experts on matters related to litigations. The Group accrues a liability when it is determined that an adverse outcome is probable

and the amount of the loss can be reasonably estimated. In the event an adverse outcome is possible or an estimate is not determinable, the matter is disclosed.

(f) Revenue Recognition

The Company uses the proportionate completion method for recognition of revenue, accounting for unbilled revenue / unearned revenue and contract cost thereon for its turnkey contracts. The percentage of completion is measured by reference to the stage of the projects and contract determined based on the proportion of contract costs incurred for work performed to date bear to the estimated total contract costs. Use of the proportionate completion method requires the Company to estimate the efforts or costs incurred to date as a proportion of the total efforts or cost to be incurred. Significant assumptions are required in determining the stage of completion, the extent of the contract cost incurred, the estimated total contract revenue and contract cost and the recoverability of the contracts. These estimates are based on events existing at the end of each reporting date.

2.2

Property, plant and equipment

Property, Plant and Equipment, Capital Work in Progress is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Cost comprises of purchase price (net of tax credits), borrowing costs, if capitalization criteria are met, commissioning expenses, etc. up to the date the asset is ready for its intended use. Freehold land is not depreciated.

Expenditure directly attributable to expansion projects is capitalized. Administrative, general overheads and other indirect expenditure (including borrowing costs) incurred during the project period which are not related to the project nor are incidental thereto, are expensed off when that are incurred.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to Consolidated statement of Profit and Loss during the year in which they are incurred.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'.

Depreciation methods, estimated useful lives

Depreciation is calculated on a straight-line basis using the rates arrived at based on the useful lives estimated by the management, which are in line with the rates prescribed in the Schedule II of the Companies Act, 2013.

Property, plant and equipment	Useful Life
Building	30 years
Furniture and Fixtures	10 years
Vehicles	8- 10 years
Office Equipment	3-5 years
Plant & Machinery	15 years
Electrical Installation	10 years
Computers & Accessories	3-6 years

The Group, based on technical assessment made by technical expert and management estimate, depreciates certain items of tools, plant & machinery and other handling equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the assets and is recognised in Consolidated statement of profit and loss.

Depreciation on addition to property plant and equipment is provided on pro-rata basis from the date of acquisition. Depreciation on sale/deduction from property plant and equipment is provided up to the date preceding the date of sale, deduction as the case may be.

Depreciation methods, useful lives and residual values are reviewed periodically at each financial year end and adjusted prospectively, as appropriate.

The Group has adopted Schedule II to the Companies Act, 2013 which requires identification and determination of separate useful life

for each major component of the property, plant and equipment, if they have useful life that is materially different from that of the remaining asset.

The carrying amounts of assets are reviewed at each Balance Sheet date to determine if there is any indication of impairment based on external or internal factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount which represents the greater of the net selling price of assets and their 'value in use'. The estimated future cash flows are discounted to their present value using pre-tax discount rates and risks specific to the asset.

2.3

Intangible Assets

Acquired intangible assets are initially measured at cost and subsequently at cost less accumulated amortization and accumulated impairment loss, if any.

Amortization of Intangible assets

Intangibles are amortized on a straight line basis over the useful lives as given below, which is based on the management estimates.

Intangible assets	Useful life
Computer Software	5 years
Trade Mark & Copyrights	3 years
Product Certifications	3 - 5 years

Intangible assets are amortized over their respective useful economic lives and assessed for impairment whenever there is an impairment indicator. The amortization expense and the gain or loss on disposal, is recognized in the Consolidated statement of profit and loss.

2.4

Rounding off amounts

All amounts disclosed in consolidated financial statements and notes have been rounded off to the nearest million as per requirement of Schedule III of the Act, unless otherwise stated.

2.5

Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalized as part of the cost of asset. All other borrowing costs are recognised as expenditure in the period in which they are incurred.

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

2.6

Foreign Currency Transactions

The Group's consolidated financial statements are presented in INR, which is also the parent Company's functional currency. For each entity the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency. The Group uses the direct method of consolidation and on disposal of a foreign operation the gain or loss that is reclassified to profit or loss reflects the amount that arises from using this method.

Transactions in foreign currencies are initially recorded in reporting currency by the Group at spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of nonmonetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit and loss, respectively).

On consolidation of subsidiaries, the assets and liabilities of foreign operations are translated into INR at the rate of exchange prevailing at the reporting date and their statements of profit or loss are translated at exchange rates prevailing at the dates of the transactions. For practical reasons, the group uses an average rate to translate income and expense items, if the average rate approximates the exchange rates at the dates of the transactions. The exchange differences arising on translation for consolidation are

recognised in OCI. On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is recognised in profit or loss.

2.7

Revenue Recognition

Sale of goods and rendering of services

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has concluded that it is the principal in its revenue arrangements because it typically controls the goods or services before transferring them to the customer.

Revenue from sales of goods is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery.

Revenues from turnkey contracts, which are generally time bound fixed price contracts are recognised over the life of the contract using the proportionate completion method with contract costs of determining the degree of completion. Foreseeable losses on such contracts are recognised when probable.

Revenue on installation and commissioning contracts are recognised as per the terms of contract. Revenue from maintenance contracts are recognised pro rata over the period of the contract.

Other Operating revenues

Exports entitlements are recognised when the right to receive such incentives as per the applicable terms is established, in respect of the exports made and when there is no significant uncertainty regarding the ultimate realisation/ utilization of such incentives.

Other Income

Interest Income is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument.

Dividend income is recognised when the Group's right to receive dividend is established by the reporting date.

Insurance claims are accounted for on the basis of claims admitted/ expected to be admitted and to the extent there is no uncertainty in receiving the claims.

2.8

Taxes

(a)

Current income tax

Current tax assets and liabilities are measured at the amount expected to be recovered or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the year end date. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

(b)

Deferred tax

Deferred tax is recognised on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in consolidated financial statements. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the year and are expected to apply when the related deferred tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses and tax credits only if it is probable that future taxable amounts will be available to utilize those temporary differences, losses and tax credits. The carrying amount of deferred tax assets is reviewed at each Balance Sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

In the situations where the Group is entitled to a tax holiday under the Income Tax Act, 1961, no deferred tax (asset or liability) is recognised in respect of temporary differences which reverse during the tax holiday period, to the extent the Group's gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of temporary differences which reverse after the tax holiday period is recognised in the year in which the temporary differences originate. However, the Group restricts the recognition of deferred tax assets to the extent that it has become probable that sufficient future taxable profits will be available against which such deferred tax assets can be realised. For recognition of deferred taxes, the temporary differences which originate first are considered to reverse first.

In case of tax payable as Minimum Alternative Tax ('MAT') under the provisions of the Income-tax Act, 1961, the credit available under the Act in respect of MAT paid is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the period for which the MAT credit can be carried forward for set-off against the normal tax liability. MAT credit recognised as a deferred tax asset is reviewed at each balance sheet date and written down to the extent the aforesaid convincing evidence no longer exists.

Current and deferred tax is recognized in Consolidated statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

2.9

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(i) Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

The right-of-use assets are also subject to impairment.

(ii) Lease Liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Short-term lease and lease of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of twelve months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of offices, godowns, equipment, etc. that are of low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

2.10

Inventories

Raw materials, packaging materials and stores and spare parts are valued at lower of cost and net realizable value. However, material

and other items held for use in production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Cost includes purchase price, (excluding those subsequently recoverable by the enterprise from the concerned revenue authorities), freight inwards and other expenditure incurred in bringing such inventories to their present location and condition.

Work in progress and Finished Goods are valued at lower of cost and net realisable value. Cost includes cost of direct materials and direct labour and a proportion of manufacturing overhead based on the normal operating capacity. Cost is determined on monthly weighted average basis.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated costs necessary to make the sale.

2.11

Provisions and contingent liabilities

Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance sheet date.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Present obligations arising under onerous contracts are recognised and measured as provisions.

Provisions for the expected cost of warranty obligations on sale of goods are recognised at the date of sale of relevant products, at the Management best estimate of the expenditure required to settle the Group's obligation. These estimates are established using historical information on the nature, frequency and average cost of warranty claims and management estimates regarding possible future incidence based on corrective actions on product failures. The timing of outflows will vary as and when warranty claim will arise.

Disclosure of contingent liability is made when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

2.12 Cash and cash equivalents

For the purposes of the Consolidated cash flow statement and Consolidated Balance Sheet, Cash and cash equivalent comprise cash at banks, cash on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

2.13 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(a) Financial assets

Classification

The Group classifies its financial assets in the following measurement categories:

a) those to be measured subsequently at fair value (either through other comprehensive income (FVOCI), or through profit or loss (FVTPL)), and

b) those measured at amortised cost.

The classification depends on the Group's business model for managing the financial assets and the contractual terms of cash flows.

For assets measured at fair value, gains and losses is either recorded in the Consolidated statement of profit and loss or other comprehensive income. For investments in debt instruments, this depends on the business model in which the investment is held. For investments in equity instruments, this depends on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income. The Group reclassifies the debt investments when and only when the business model for managing those assets changes.

Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial

assets carried at fair value through profit or loss are expensed in the Consolidated statement of profit and loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Impairment of financial assets

The Group assesses on a forward looking basis, the expected credit losses associated with its assets carrying at amortized cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables only, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

Derecognition of financial assets

A financial asset is derecognised only when

- The Group has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Fair value of Financial Instruments

In determining the fair value of financial instruments, the Group uses a variety of method and assumptions that are based on market conditions and risk existing at each reporting date. The methods used to determine fair value includes discounted cash flow analysis and available quoted market prices. All method of assessing fair value result in general approximation of fair value and such value may never actually be realised.

Investments in units of mutual funds are accounted for at fair value and the changes in fair value are recognised in the Consolidated statement of Profit and Loss.

(b) Financial liabilities

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs.

(i) Borrowings

Borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost using the effective interest method. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the Consolidated statement of profit and loss over the period of the borrowings using the effective interest method. Fees paid on loan facilities are recognised as transaction costs of the borrowings to the extent that it is probable that some or all of the facility will be drawn down. Borrowings are derecognised from the consolidated balance sheet when the obligation specified in the contract is discharged, cancelled or expired.

(ii) Embedded derivatives

An embedded derivative is a component of a hybrid (combined) instrument that also includes a non-derivative host contract – with the

effect that some of the cash flows of the combined instrument vary in a way similar to a standalone derivative. Derivatives embedded in all other host contract are separated if the economic characteristics and risks of the embedded derivative are not closely related to the

economic characteristics and risks of the host and are measured at fair value through profit or loss. Embedded derivatives closely related to the host contracts are not separated.

Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss.

2.14

Employee Benefits

A

Short term employee benefits

Liabilities for short term employee benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' service up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefits payable in the consolidated balance sheet.

B

Post-employment benefits

(i)

Defined contribution plan

Contributions under Defined Contribution Plans payable in keeping with the related schemes are recognised as expenses for the period in which the employee has rendered the service.

(ii)

Defined benefit plans

Gratuity: The Group provides for gratuity, a defined benefit plan covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary. The Group's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognises the following changes in the net defined benefit obligation as an expense in the Consolidated statement of Profit and Loss:

- (i) Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- (ii) Net interest expense or income

Compensated absence: The Group provides for the sick leave and encashment of earned leave or leave with pay subject to certain rules. The employees are entitled to accumulate earned leave and sick leave subject to certain limits, for future utilization or encashment. The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured annually by actuaries as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in the statement of profit and loss.

2.15

Government Grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attached to them and there is a reasonable certainty that grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate.

Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred revenue in the consolidated balance sheet and transferred to profit or loss on a systematic and rational basis over the useful life of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

2.16

Derivative financial instruments

The Group enters into foreign exchange forward contracts to manage its exposure to foreign currency risk. Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured to their fair value at the end of each reporting period with changes included in other income / other expense in the Consolidated statement of Profit and Loss unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedging relationship and the nature of the hedged item.

2.17

Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker is responsible for allocating resources and assessing performance of the operating segments and has been identified as the Chief Executive Officer (CEO) of the Group. Refer note 52.

2.18

Earnings Per Share

Basic earnings per share is calculated by dividing the net profit or loss before other comprehensive income for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year is adjusted for the effects of all dilutive potential equity shares.

2.19

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the consolidated balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

3

Recent accounting pronouncement

On 23rd March, 2022, the Ministry of Corporate Affairs ("MCA") through notifications, amended to the existing Ind AS. The same shall come into force from annual reporting period beginning on or after 1st April, 2022. Key Amendments relating to the same whose financial statements are required to comply with Companies (Indian Accounting Standards) Rules 2015 are:

- Ind AS 16 Property, Plant and Equipment – For items produced during testing / trail phase, clarification added that revenue generated out of the same shall not be recognised in SOPL and considered as part of cost of PPE.
- Ind AS 37 Provisions, Contingent Liabilities & Contingent Assets – Guidance on what constitutes cost of fulfilling contracts (to determine whether the contract is onerous or not) is included.
- Ind AS 103 – Business Combination – Reference to revised Conceptual Framework. For contingent liabilities / levies, clarification is added on how to apply the principles for recognition of contingent liabilities from Ind AS 37. Recognition of contingent assets is not allowed.
- Ind AS 109 Financial Instruments – The amendment clarifies which fees an entity includes when it applies the '10 per cent' test in assessing whether to derecognise a financial liability.

The amendments are extensive and the Group will evaluate the same to give effect to them as required by law.

Textual information (23)**Disclosure of accounting for government grants and disclosure of government assistance [Text Block]****Government Grants**

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attached to them and there is a reasonable certainty that grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate.

Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred revenue in the consolidated balance sheet and transferred to profit or loss on a systematic and rational basis over the useful life of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

Deferred Income from Grant

A

The Parent Company had applied for Modified Special Incentive Package Scheme(M-SIPS) in earlier years, wherein the Parent Company is entitled to capital subsidy on eligible investments in setting of manufacturing facilities of Solar PV Module . The incentive is provided on reimbursement basis. During the year ended 31st March, 2018, the Parent Company had obtained approval from the competent approving authority for capital subsidy form Government of India under M-SIPS scheme. Grant receivable has been recognised by the Parent Company as deferred revenue in the balance sheet and transferred to profit or loss on a systematic and rational basis over the useful life of the related assets.

	Particulars	As at March 31, 2023	As at March 31, 2022

Disclosure of additional balance sheet notes explanatory [Text Block]

The Director General of Trade Remedies (DGTR) had recommended imposition of safeguard duty on “Solar Cells whether or not assembled in modules or panels” imported from China and Malaysia on July 16, 2018 based on their final findings for a period of two years which has been further extended till 30th July, 2021. Certain Solar Companies had filed writ petition before the Hon'ble Orissa High Court against the recommendation of DGTR and Hon'ble Orissa High court has passed an interim order on July 23, 2018 whereby Government of India (GOI) was directed not to issue any notification in this regard. However, GOI issued notification dated July 30, 2018 confirming the imposition of safeguard duty ignoring the interim order passed by the Hon'ble Orissa High Court. In the meanwhile, the Company also preferred a Writ Petition before the Hon'ble High Court of Orissa challenging the recommendation of DGTR and the notification dated July 30, 2018 issued by GOI. Pursuant to the above, GOI issued instruction dated August 13, 2018 directing all the Commissionerates not to insist on payment of safeguard duty and to assess the import of solar cells / modules on a provisional basis. Subsequently, GOI has filed a SLP before the Hon'ble Supreme Court of India against the interim order of Orissa High Court.

The Hon'ble Supreme court has stayed the interim order passed by the Hon'ble Orissa High Court vide its order dated September 10, 2018. After this order, GOI issued instruction dated September 13, 2018 for withdrawal of earlier instruction dated August 13, 2018 and for finalisation of provisionally assessed bill of entries.

The Parent Company has paid Rs 1,485.20 million till July 29, 2021 towards above safeguard duty on clearances for stock transfers/ EPC contracts, which has been considered as refundable and disclosed as receivable in these consolidated financial statements since the matter is pending before the Hon'ble Orissa High Court as well as the Hon'ble Supreme Court and based on legal opinion obtained by the Parent Company, the Parent Company has an arguable case on merits. However, in case the matter is decided against the solar Companies, the Group is entitle to receive Rs 461.03 million from EPC customers based on representation made by the Group to these customers whose acceptance is pending as on date.

Further, no safeguard duty was paid by the Parent Company on clearances from SEZ from July 30, 2018 to September 13, 2018 as stated above and the clearances were made on undertaking furnished by the Parent Company. Based on legal opinion obtained by the Parent Company, no safe guard duty is payable on clearances from SEZ during the said period since goods were cleared out of imported materials lying in stock as on the date of which the safeguard duty was imposed i.e. July 30, 2018.

Textual information (30)

Disclosure of additional balance sheet notes explanatory [Text Block]

The spread of COVID-19 pandemic has severely impacted businesses around the globe, including India and the regular business operations of the company has also been impacted. The management has considered various internal & external sources of information up to the date of approval of the financial statements by the Board of Directors in determining the impact of pandemic on the various elements of consolidated financial statements. The management has also evaluated its liquidity position for the next year and used the principles of prudence in applying judgments, estimates & assumptions and based on the current estimates, does not anticipate any challenge in the Group's ability to continue as a going concern or meeting its financial obligations and expects to fully recover the carrying amount of various Non current & current assets including inventories, trade receivables, investments and other assets. However considering the uncertainties involved, the eventual outcome of impact of the pandemic may be different from those estimated as on the date of approval of these consolidated financial statements and the Group will continue to closely monitor any material changes in future economic conditions.

The Director General of Trade Remedies (DGTR) had recommended imposition of safeguard duty on "Solar Cells whether or not assembled in modules or panels" imported from China and Malaysia on July 16, 2018 based on their final findings for a period of two years which has been further extended till 30th July, 2021. Certain Solar Companies had filed writ petition before the Hon'ble Orissa High Court against the recommendation of DGTR and Hon'ble Orissa High court has passed an interim order on July 23, 2018 whereby Government of India (GOI) was directed not to issue any notification in this regard. However, GOI issued notification dated July 30, 2018 confirming the imposition of safeguard duty ignoring the interim order passed by the Hon'ble Orissa High Court. In the meanwhile, the Company also preferred a Writ Petition before the Hon'ble High Court of Orissa challenging the recommendation of DGTR and the notification dated July 30, 2018 issued by GOI. Pursuant to the above, GOI issued instruction dated August 13, 2018 directing all the Commissionerates not to insist on payment of safeguard duty and to assess the import of solar cells / modules on a provisional basis. Subsequently, GOI has filed a SLP before the Hon'ble Supreme Court of India against the interim order of Orissa High Court.

The Hon'ble Supreme court has stayed the interim order passed by the Hon'ble Orissa High Court vide its order dated September 10, 2018. After this order, GOI issued instruction dated September 13, 2018 for withdrawal of earlier instruction dated August 13, 2018 and for finalisation of provisionally assessed bill of entries.

The Parent Company has paid Rs 1,485.20 Million till March 31, 2022 (March 31, 2021 Rs 1,389.36 Million) towards above safeguard duty on clearances for stock transfers/ongoing EPC contracts, which has been considered as refundable and disclosed as receivable in these Financial Statements since the matter is pending before the Hon'ble Orissa High Court as well as the Hon'ble Supreme Court and based on legal opinion obtained by the Company, the Company has an arguable case on merits. However, in case the matter is decided against the solar Companies, the Company is entitle to receive Rs 461.03 Million (March 31, 2021 Rs 461.03 Million) from EPC customers based on representation made by the Parent Company to these customers whose acceptance is pending as on date.

Further, no safeguard duty was paid by the Parent Company on clearances from SEZ from July 30, 2018 to September 13, 2018 as stated above and the clearances were made on undertaking furnished by the Company. Based on legal opinion obtained by the Parent Company, no safe guard duty is payable on clearances from SEZ during the said period since goods were cleared out of imported materials lying in stock as on the date of which the safeguard duty was imposed i.e. July 30, 2018.

The following table provides details of Group revenue from contract with customer		
Timing of revenue recognition		
- Goods transferred at a point in time	9,711.48	6,690.16
- Goods / Services transferred over time	11,018.31	10,610.63

Total	20,729.79	17,300.79
The following table provides details of Geographical revenue from contract with customer		
India	16,244.92	15,389.29
Overseas	4,484.87	1,911.50
	20,729.79	17,300.79
Transaction Price - Remaining Performance Obligation		
The remaining performance obligation disclosure provides the aggregate amount of the transaction price yet to be recognised as at the end of the reporting period and an explanation as to when the Group expects to recognise these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Group has not disclosed the remaining performance obligation related disclosures for contracts as the revenue recognised corresponds directly with the value to the customer of the entity's performance completed to date.		
The following table provides information about contract asset and contract liabilities from contract with customers:		
	As at March 31, 2023	As at March 31, 2022
Contract Assets and liabilities as at Opening (excluding trade receivable and trade payable)		
- Opening Advances from EPC Customers	395.13	717.68
- Opening Advances from Other Customers	2,497.12	288.47
- Opening Unbilled revenue	1,298.25	208.61
- Opening Unearned revenue	8.00	14.35
Revenue recognized during the year from contract	12,308.56	10,804.89
Revenue recognized during the year that was included in the contract liability at Opening (excluding Advance from Customer)	(1,290.25)	(194.26)
Contract Assets and liabilities as at Closing (excluding trade receivable and trade payable)		
- Closing Advances from EPC Customers	-	395.13
- Closing Advances from Other Customers	7,490.27	2,497.12

- Closing Unbilled revenue	3,768.54	1,298.25
- Closing Unearned revenue	1.02	8.00

Note: Contract asset is the right to consideration in exchange for goods or services transferred to the customer. Contract liability is the entity's obligation to transfer goods or services to a customer for which the entity has received consideration from the customer in advance. Contract assets are transferred to receivables when the rights become unconditional and contract liabilities are recognized as and when the performance obligation is satisfied.

The Parent Company had entered into Power Purchase Agreement with Tirumala Tirupati Devasthanams (Grantor) for installation and operation of Solar power plant under Build Own Operate and Transfer (BOOT) system, under which the Parent Company shall be entitled to income from sale of power generated from such plant at an agreed per unit rate. The Parent Company shall transfer the plant to the grantor at the end of the operation period. Above arrangement classifies as service concession arrangement under Ind AS 115 and hence has been accounted for as financial asset model.

Key details of the agreement are given below:

Construction period	1 year
Operation period	21 years
Capacity of Solar Power Plant	10 MW

There are no revenue and profit recognised towards above construction services during the year ended March 31, 2023 (March 31, 2022 : Nil)

Methods used to determine construction contract revenue recognised

Revenues from turnkey contracts, which are generally time bound fixed price contracts are recognised over the life of the contract using the proportionate completion method with contract costs of determining the degree of completion. Foreseeable losses on such contracts are recognised when probable. Revenue on installation and commissioning contracts are recognised as per the terms of contract. Revenue from maintenance contracts are recognised pro rata over the period of the contract.

Textual information (38)

Methods used to determine construction contract revenue recognised

Foreseeable losses on such contracts are recognised when probable. Revenue on installation and commissioning contracts are recognised as per the terms of contract. Revenue from maintenance contracts are recognised pro rata over the period of the contract.

Textual information (39)

Methods used to determine stage of completion of construction in progress

(f) Revenue Recognition The Company uses the proportionate completion method for recognition of revenue, accounting for unbilled revenue / unearned revenue and contract cost thereon for its turnkey contracts. The percentage of completion is measured by reference to the stage of the projects and contract determined based on the proportion of contract costs incurred for work performed to date bear to the estimated total contract costs. Use of the proportionate completion method requires the Company to estimate the efforts or costs incurred to date as a proportion of the total efforts or cost to be incurred. Significant assumptions are required in determining the stage of completion, the extent of the contract cost incurred, the estimated total contract revenue and contract cost and the recoverability of the contracts. These estimates are based on events existing at the end of each reporting date.

43 Employee benefits

(I) Defined contribution plan

The Group has provident fund plans for certain employees of the Group. Contributions are made to provident fund in India for certain employees of the Group at the rate of 12% of basic salary subject to statutory limits. The obligation of the Group is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the period towards defined contribution plan is ₹ 14.26 million (31 March 2022- ₹ 19.17 million).

(II) Defined benefit plan - Unfunded

(a) Leave Obligations

The Group provides for the encashment of leave or leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment. The liability is provided based on the number days of unutilised leave at each balance sheet date on the basis of year-end actuarial valuation using projected unit credit method. The scheme is unfunded.

Based on past experience and in keeping with Group's practice, the Group does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months and accordingly the total year end provision determined on actuarial valuation, as aforesaid is classified between current and non current.

(b) Gratuity

The Group has a defined benefit gratuity plan. Certain employee of the group who has completed five years or more of service is entitled to Gratuity on terms not less favourable than the provisions of The Payment of Gratuity Act, 1972. The scheme is unfunded.

A Principal actuarial assumptions

Principal actuarial assumptions used to determine the present value of the defined benefit obligation as at and for the year ended are as follows:

Particulars	March 31, 2023	March 31, 2022
Discount rate	7.30%	7.30%
Expected rate of increase in compensation level of covered employees	5.00%	5.00%

Mortality rate	Indian Assured Lives Mortality (2006-08) Ultimate	Indian Assured Lives Mortality (2006-08) Ultimate
Attrition rate	2.00%	2.00%

The estimates of future salary increase considered in actuarial valuation, takes account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

B Details of Actuarial Valuation carried out on Balance Sheet date are as under:

Amount recognised in the Consolidated Balance Sheet consists of:

Particulars	March 31, 2023	March 31, 2022
Present value of defined benefit obligations	37.46	38.54
Net liability arising from defined benefit obligations	37.46	38.54

Amounts recognised in Consolidated Statement of Profits and Losses in respect of gratuity scheme are as follows:

Particulars	March 31, 2023	March 31, 2022
Current service cost	9.30	8.67
Past service cost	-	-
Interest cost	2.49	2.09
Less: Capitalized during the year	(0.97)	(0.16)
Total charge to Consolidated statement of profit and loss	10.82	10.60

Amounts recognised in the consolidated statement of comprehensive income are as follows:

Remeasurement of the net defined benefit obligation:-

Particulars	March 31, 2023	March 31, 2022
Re-measurement losses /(gains) arising from changes in financial assumptions	-	(2.62)
Re-measurement losses /(gains) arising from experience adjustments	(4.13)	1.90
Re measurement of the net defined benefit liability	(4.13)	(0.72)
The movement during the year of the present value of the defined benefit obligation was as follows:		
Particulars	March 31, 2023	March 31, 2022
Opening balance	38.54	32.98
Current service cost	9.30	8.67
Past Service Cost	-	-
Interest cost of scheme liabilities	2.49	2.09
Benefits (paid)	(5.46)	(4.54)
Actuarial loss on obligations	(4.13)	(0.72)
Acquisition Adjustment	(1.56)	0.06
Adjustment on account of sale of subsidiary	(1.72)	-
Closing balance	37.46	38.54
Recognised under:		
Current provision	2.28	1.63
Non current provision	35.18	36.91

The gratuity scheme is unfunded hence there was no plan asset as at March 31, 2023 and as at March 31, 2022.

C Sensitivity analysis

Below is the sensitivity analysis determined for significant actuarial assumptions for the determination of defined benefit obligations and based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period while holding all other assumptions constant.

Increased /(Decreased) defined benefit obligation

Particulars	March 31, 2023	March 31, 2022
Discount rate		
Increase by 1%	-4.29	-4.09
Decrease by 1%	5.20	5.50
Expected rate of change in compensation level of covered employees		
Increase by 1%	4.86	5.06
Decrease by 1%	-4.14	-4.00

The above sensitivity analysis may not be representative of the actual benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

In presenting the above sensitivity analysis, the present value of defined benefit obligation has been calculated using the projected unit credit method at the end of reporting period, which is the same as that applied in calculating the defined obligation liability recognized in the consolidated balance sheet.

D Risk analysis

The Group is exposed to a number of risks in the defined benefit plans. Most significant risks pertaining to defined benefits plans and management estimation of the impact of these risks are as follows:

(1) Salary growth risks

Higher than expected increases in salary will increase the defined benefit obligation.

(2) Life expectancy / Longevity risks

The present value of the defined benefit plan liability is calculated by reference to the best estimates of the mortality of plan participants both during and after their employment. Mortality tables as per Indian Assured Lives Mortality (2006-08) Ult. is used for during the employment and post retirement respectively. An increase in the life expectancy of the plan participants will increase the plan's liability.

(3) Interest rate risks

The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

(4) Inflation risks

A decrease in the inflation rate will increase the plan's liability.

E Maturity profile of defined benefit obligation (without discounting)

Particulars	March 31, 2023	March 31, 2022
Expected benefit payments for the year ending		
Not later than 1 year	2.37	1.68
Later than 1 year and nor later than 5 years	8.96	12.87
More than 5 years	37.22	33.44

More than 5 years	37.22	33.44

Textual information (44)

Disclosure of net defined benefit liability (assets) [Text Block]

Defined benefit plans

Gratuity: The Group provides for gratuity, a defined benefit plan covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary. The Group's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognises the following changes in the net defined benefit obligation as an expense in the Consolidated statement of Profit and Loss:

- (i) Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- (ii) Net interest expense or income

Compensated absence: The Group provides for the sick leave and encashment of earned leave or leave with pay subject to certain rules. The employees are entitled to accumulate earned leave and sick leave subject to certain limits, for future utilization or encashment. The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured annually by actuaries as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in the statement of profit and loss.

(I) Defined contribution plan

The Group has provident fund plans for certain employees of the Group. Contributions are made to provident fund in India for certain employees of the Group at the rate of 12% of basic salary subject to statutory limits. The obligation of the Group is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the year towards defined contribution plan is ₹ 19.17 million (31 March 2021- ₹ 17.33 Million).

(II) Defined benefit plan - Unfunded

(a) Leave Obligations

The Group provides for the encashment of leave or leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment. The liability is provided based on the number days of unutilised leave at each balance sheet date on the basis of year-end actuarial valuation using projected unit credit method. The scheme is unfunded.

Based on past experience and in keeping with Group's practice, the Group does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months and accordingly the total year end provision determined on actuarial valuation, as aforesaid is classified between current and non current.

(b) Gratuity

The Group has a defined benefit gratuity plan. Certain employee of the group who has completed five years or more of service is entitled to Gratuity on terms not less favourable than the provisions of The Payment of Gratuity Act, 1972. The scheme is unfunded.

A Principal actuarial assumptions

Principal actuarial assumptions used to determine the present value of the defined benefit obligation as at and for the year ended are as follows:

Particulars	March 31, 2022	March 31, 2021
Discount rate	7.30%	6.80%
Expected rate of increase in compensation level of covered employees	5.00%	5.00%
Mortality rate	Indian Assured Lives Mortality (2006-08) Ultimate	Indian Assured Lives Mortality (2006-08) Ultimate
Attrition rate	2.00%	2.00%

The estimates of future salary increase considered in actuarial valuation, takes account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

B Details of Actuarial Valuation carried out on Balance Sheet date are as under:

Amount recognised in the Consolidated Balance Sheet consists of:

Particulars	March 31, 2022	March 31, 2021
Present value of defined benefit obligations	38.54	32.99
Net liability arising from defined benefit obligations	38.54	32.99

Amounts recognised in Consolidated Statement of Profits and Losses in respect of gratuity scheme are as follows:

Particulars	March 31, 2022	March 31, 2021
-------------	-------------------	-------------------

Current service cost	8.67	7.48
Past service cost	-	-
Interest cost	2.09	1.80
Less: Capitalized during the year	(0.16)	-
Total charge to Consolidated statement of profit and loss	10.60	9.28

Amounts recognised in the consolidated statement of comprehensive income are as follows:

Remeasurement of the net defined benefit obligation:-

Particulars	March 31, 2022	March 31, 2021
Re-measurement losses /(gains) arising from changes in financial assumptions	(2.62)	(0.46)
Re-measurement losses /(gains) arising from experience adjustments	1.90	(1.35)
Re measurement of the net defined benefit liability	(0.72)	(1.81)

The movement during the year of the present value of the defined benefit obligation was as follows:

Particulars	March 31, 2022	March 31, 2021
Opening balance	32.98	28.11
Current service cost	8.67	7.48
Past Service Cost	-	-
Interest cost of scheme liabilities	2.09	1.80
Benefits (paid)	(4.54)	(2.54)

Actuarial loss on obligations	(0.72)	(1.81)
Acquisition Adjustment	0.06	(0.05)
Closing balance	38.54	32.99
Recognised under:		
Current provision	1.63	1.31
Non current provision	36.91	31.68

The gratuity scheme is unfunded hence there was no plan asset as at March 31, 2022 and as at March 31, 2021.

C Sensitivity analysis

Below is the sensitivity analysis determined for significant actuarial assumptions for the determination of defined benefit obligations and based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period while holding all other assumptions constant.

Increased /(Decreased) defined benefit obligation

Particulars	March 31, 2022	March 31, 2021
Discount rate		
Increase by 1%	-4.09	-4.11
Decrease by 1%	5.50	5.05
Expected rate of change in compensation level of covered employees		
Increase by 1%	5.06	4.68
Decrease by 1%	-4.00	-3.90

The above sensitivity analysis may not be representative of the actual benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

In presenting the above sensitivity analysis, the present value of defined benefit

obligation has been calculated using the projected unit credit method at the end of reporting period, which is the same as that applied in calculating the defined obligation liability recognized in the consolidated balance sheet.

D Risk analysis

The Group is exposed to a number of risks in the defined benefit plans. Most significant risks pertaining to defined benefits plans and management estimation of the impact of these risks are as follows:

(1) Salary growth risks

Higher than expected increases in salary will increase the defined benefit obligation.

(2) Life expectancy / Longevity risks

The present value of the defined benefit plan liability is calculated by reference to the best estimates of the mortality of plan participants both during and after their employment. Mortality tables as per Indian Assured Lives Mortality (2006-08) Ult. is used for during the employment and post retirement respectively. An increase in the life expectancy of the plan participants will increase the plan's liability.

(3) Interest rate risks

The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

(4) Inflation risks

A decrease in the inflation rate will increase the plan's liability.

E Maturity profile of defined benefit obligation (without discounting)

Particulars	March 31, 2022	March 31, 2021
Expected benefit payments for the year ending		
Not later than 1 year	1.68	1.35
Later than 1 year and nor later than 5 years	12.87	10.55
More than 5 years	33.44	26.19

[612800] Notes - Borrowing costs

Textual information (51)**Disclosure of other provisions [Text Block]**

Provision for warranty claims represents present value of the management's best estimate of the future outflow of economic benefits that will be required under the Group's obligations for warranties under sale of products. The estimates has been made on the basis of historical trends and may vary as a result of new materials, altered manufacturing processes or other events affecting product quality.

Further, Group's product namely Solar PV Modules carries performance warranty of up to 25 - 30 years from the date of supply. A fair estimate of future liability that may arise on this account is not ascertainable and hence not provided.

Textual information (52)**Disclosure of other provisions [Text Block]**

Provision for warranty claims represents present value of the management's best estimate of the future outflow of economic benefits that will be required under the Group's obligations for warranties under sale of products. The estimates has been made on the basis of historical trends and may vary as a result of new materials, altered manufacturing processes or other events affecting product quality.
